Individually planned
for you

...THE AMERICAN HOME BUYER

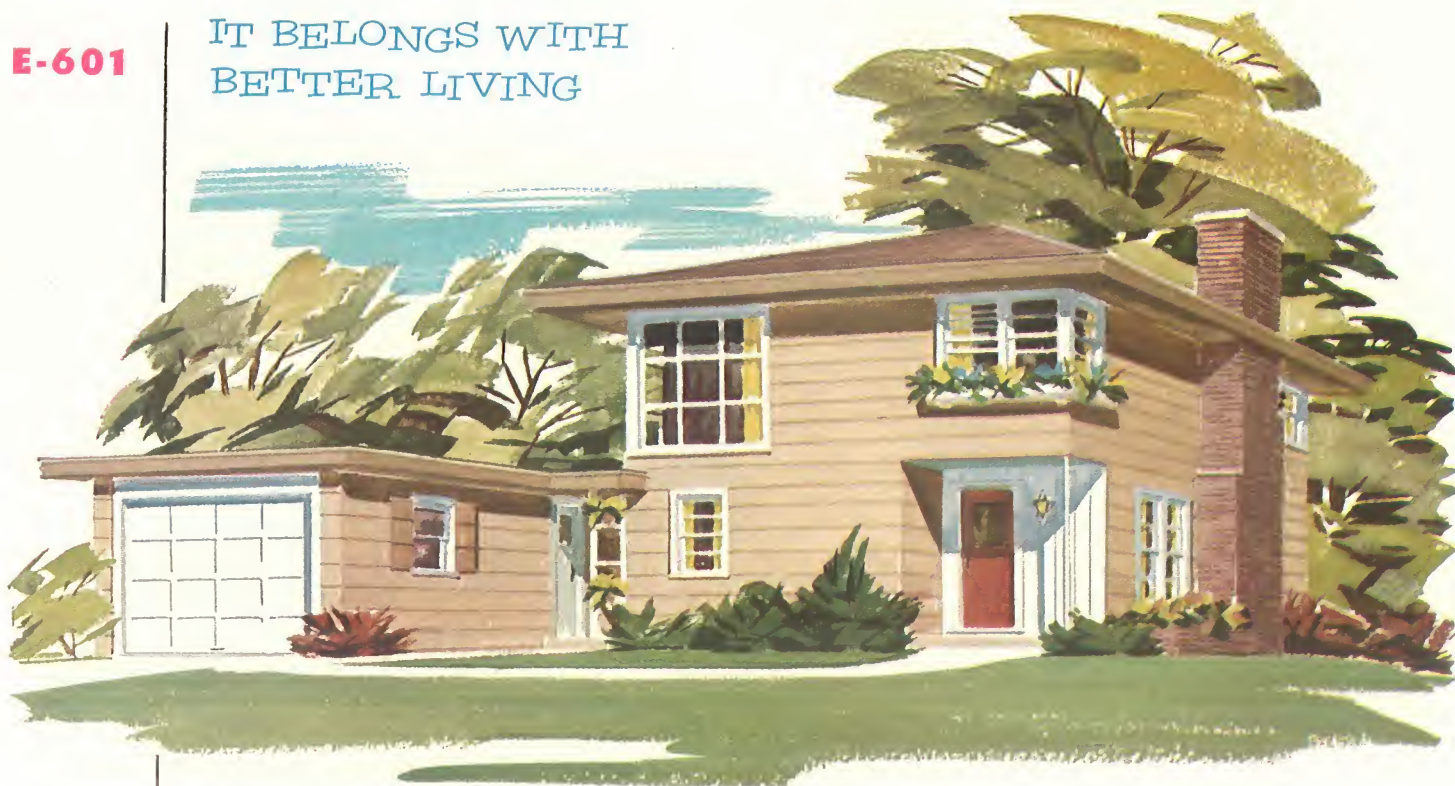

The many homes of individuality presented in this book reflect the best ideas of most recent modern and popular developments in design and planning. Exterior concepts extend from the latest contemporary types to the more conservative traditional types planned in a modern manner—the latter yet enjoying the same marked popularity prevalent for many years. While emphasis in this book is placed on two-story and story-and-a-half homes, many popular and attractive split-level types are also shown. All of the homes have the flavor of being individually planned for you and we hope that you can find, among the wide variety of ideas shown, one that will fit your particular requirements—your neighborhood, your lot, your family.

Our experience in home construction, knowledge of materials, trade conditions and finance are at your disposal at all times. Please feel free to come in and discuss any phase of home building with us—with no obligation on your part, of course.

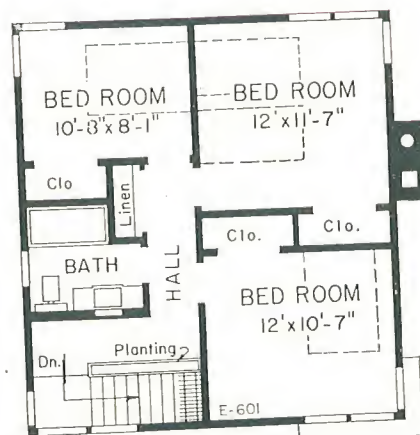

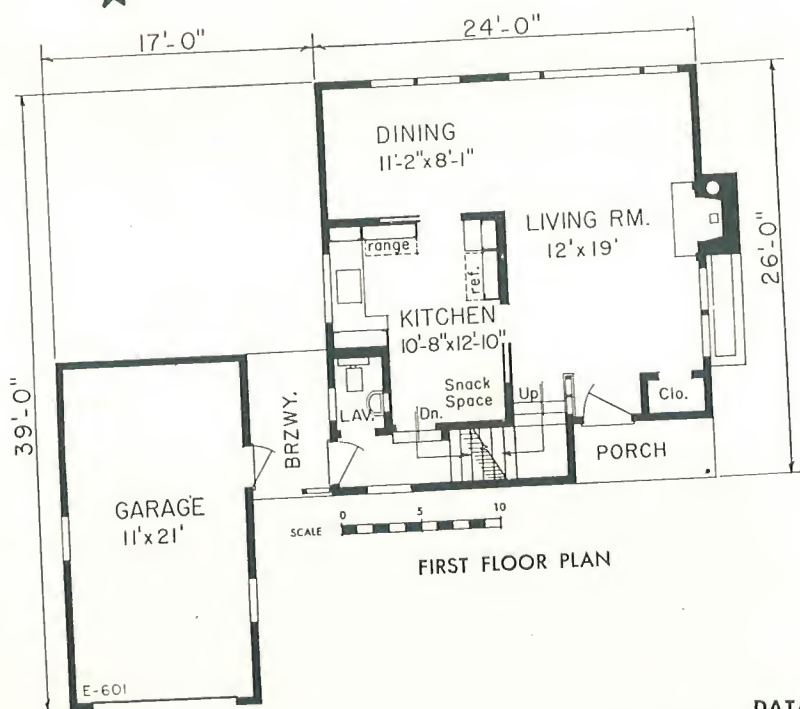

E-601

IT BELONGS WITH BETTER LIVING

Hip roof, horizontal siding, modern window treatment, protected entrance and flat roof on garage are design features that provide the clean and attractive exterior for this two-story home. A large and unique "L" shape living-dining area with natural fireplace, and an efficient kitchen with snack space are included on the first floor. The bath and three bedrooms on the second floor complete the interior plans of this beautiful home.

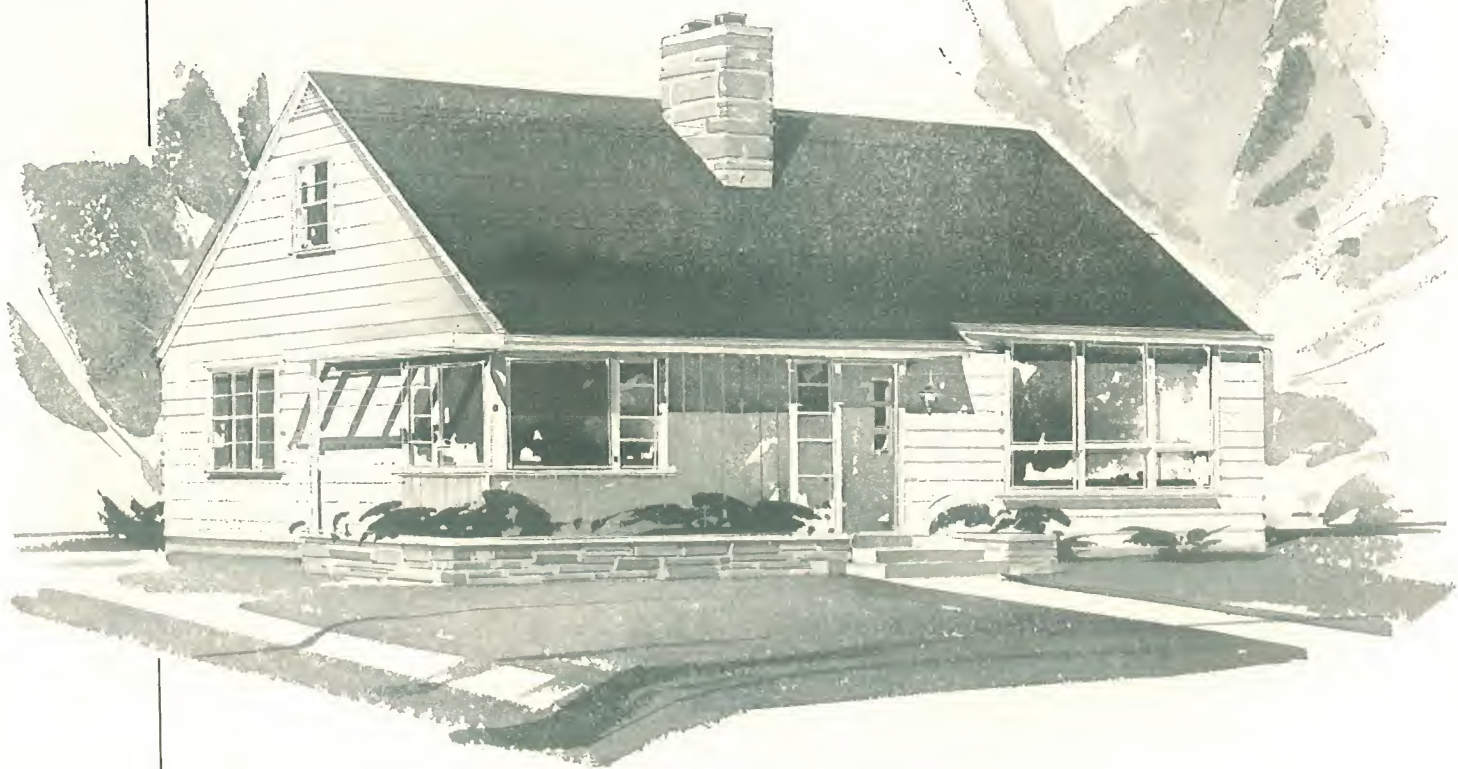

SECOND FLOOR PLAN

DATA

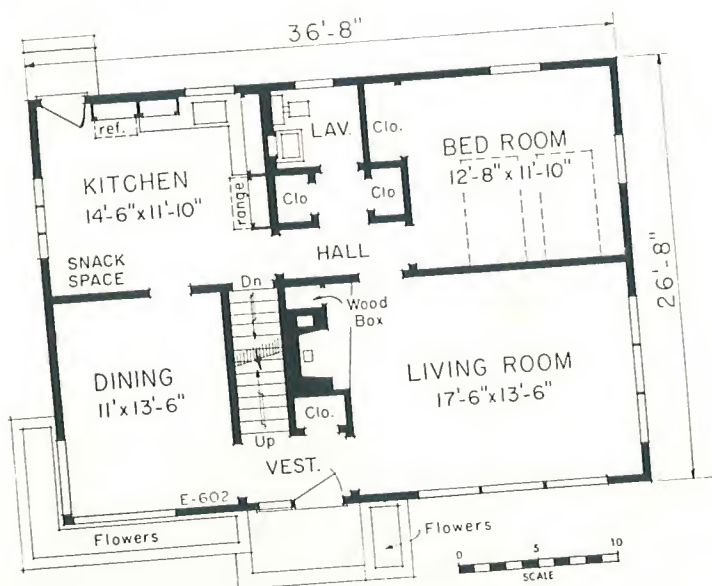

Living Area, Both Floors — 1,215 sq. ft.

E-602

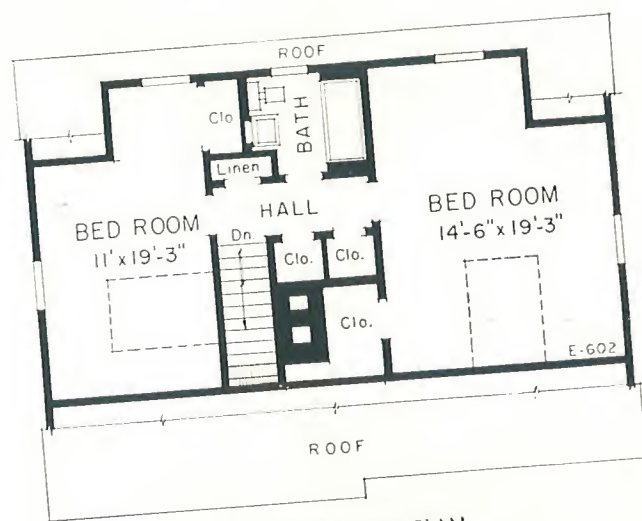

A CAPE COD IN THE MODERN TREND

The blending of traditional architecture with up-to-the-minute styling created the smart exterior of this six room home. Note how picture windows are featured in both dining room and living room. The carefully planned first floor interior includes a kitchen with snack space, one bedroom, lavatory, dining room and living room with natural fireplace. Two additional bedrooms and bath are provided on the second floor.

FIRST FLOOR PLAN

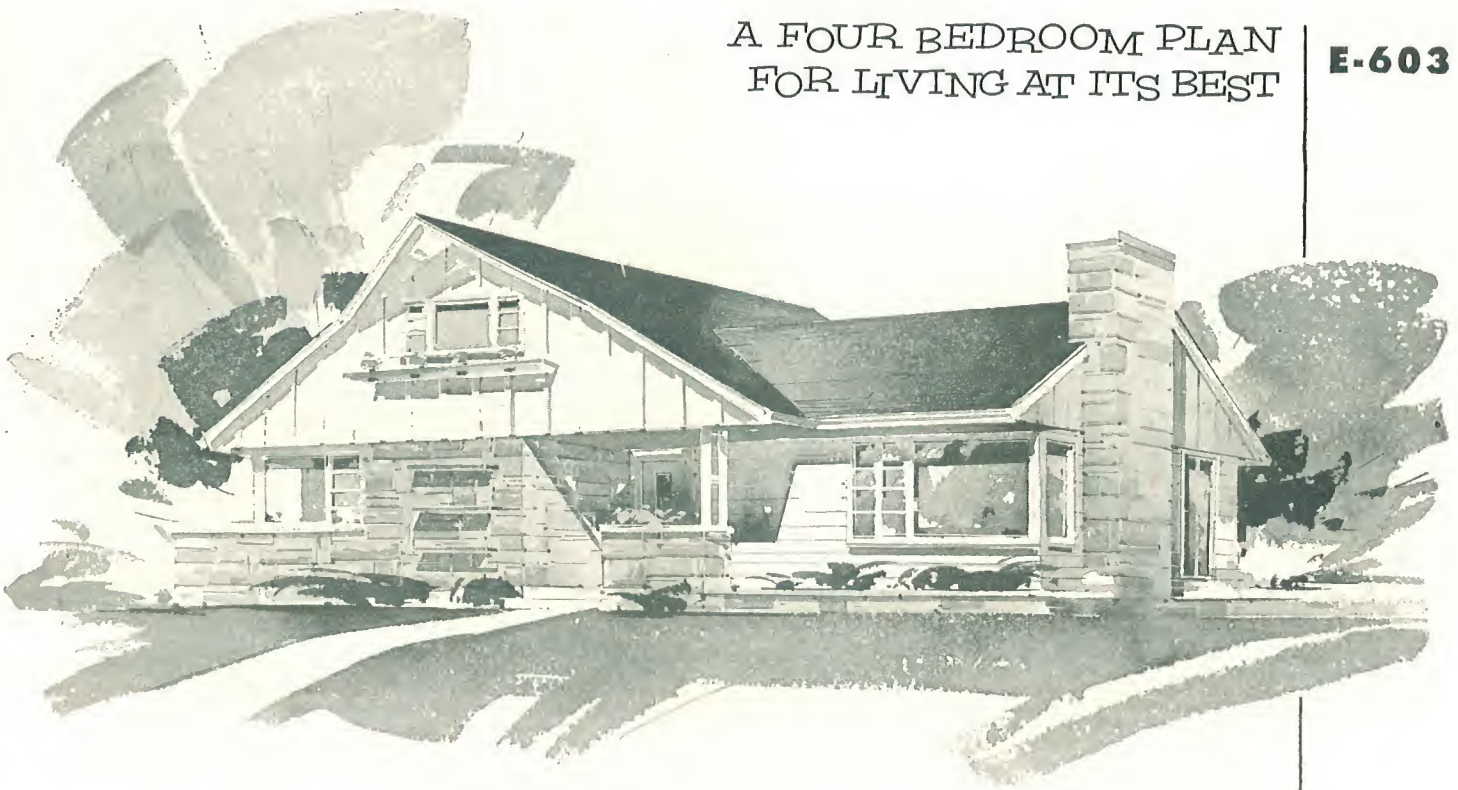

SECOND FLOOR PLAN

DATA

Living Area, Both Floors — 1,671 sq. ft.

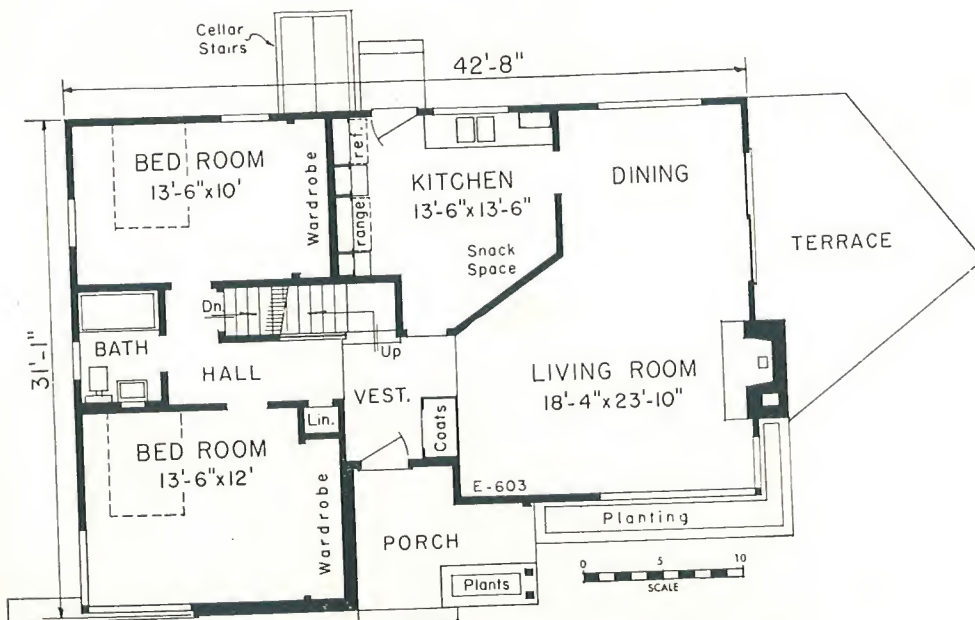

A FOUR BEDROOM PLAN FOR LIVING AT ITS BEST

E-603

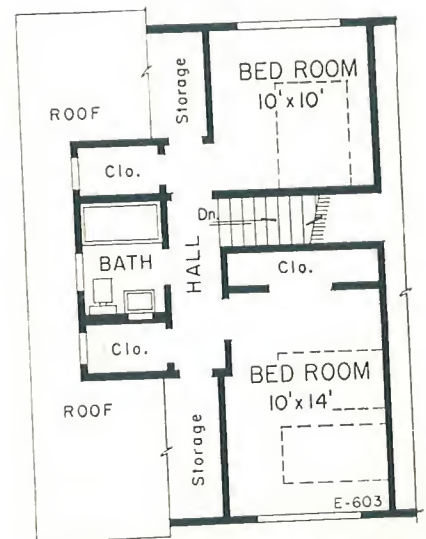

Featured on the cover in full color and second to none in appearance and comfort, this is an ideal home for the prospect who wants outdoor living right at his doorstep. Horizontal siding, masonry, plus the use of board and batten on roof gables provide the exterior eye-appeal of this design. Also note the unusual handling of gable projection on the roof.

See us for blueprint plans of all homes illustrated in this book. Plans are available either as shown or in reverse position.

FIRST FLOOR PLAN

SECOND FLOOR PLAN

DATA

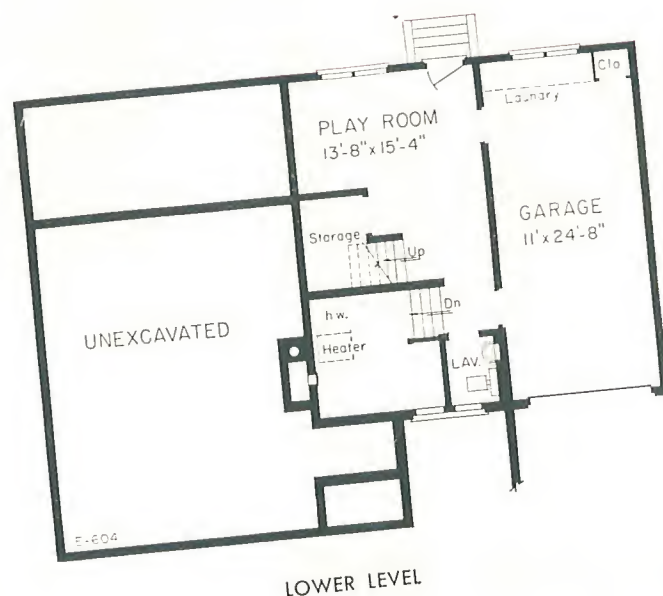

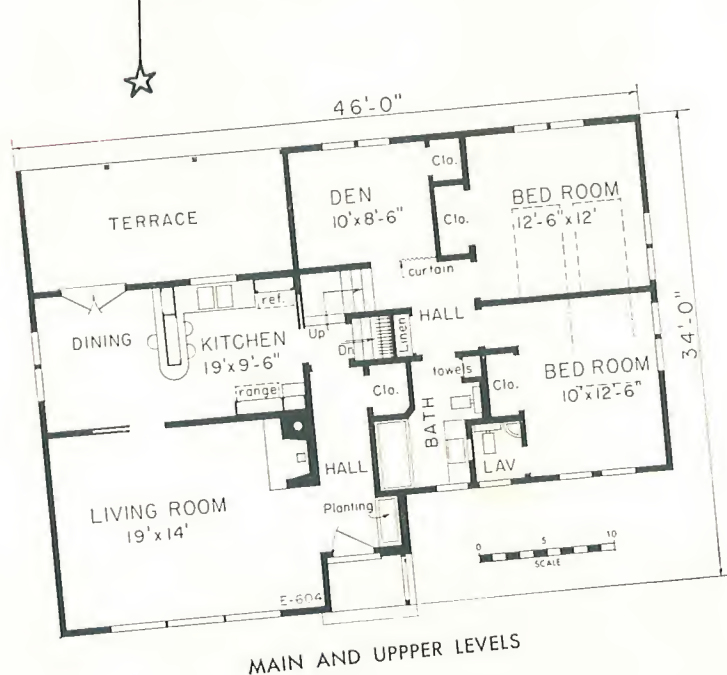

Living Area, Both Floors — 1,675 sq. ft.

E-604

AN EASY LIVING MULTI-LEVEL PLAN

Featuring an exterior that is as modern as the well planned interior, this multi-level design includes a terrace adjacent to the dining area and a play room on the lower level for your indoor and outdoor living pleasure. Other comfort factors of this home are the den which can serve as a third bedroom, if needed, and bath and a half included on the upper level. Garage, laundry and storage areas are provided on the lower level.

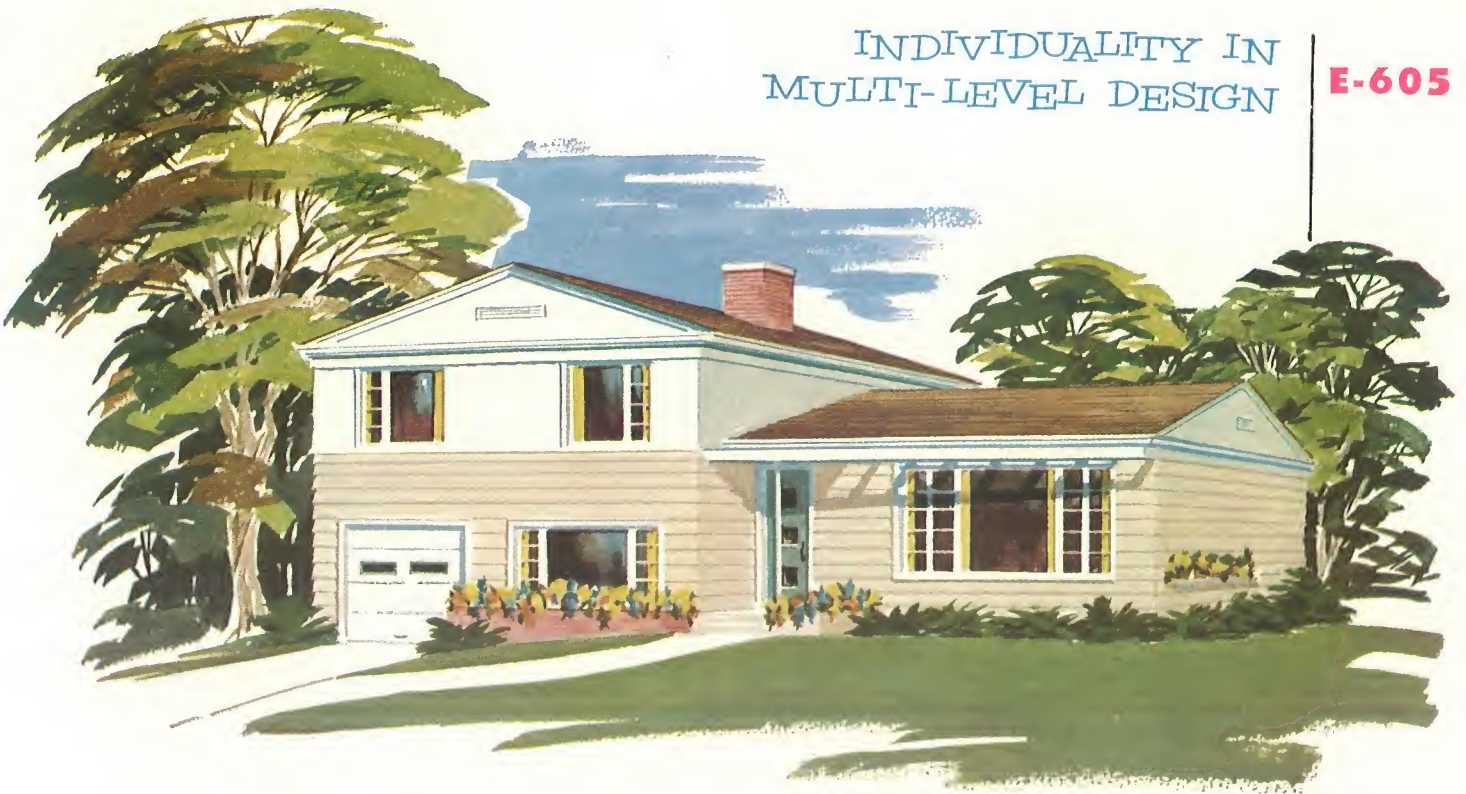

DATA

Living Area, Main and Upper Levels — 1,209 sq. ft.

See us for blueprint plans of all homes illustrated in this book. Plans are available either as shown or in reverse position.

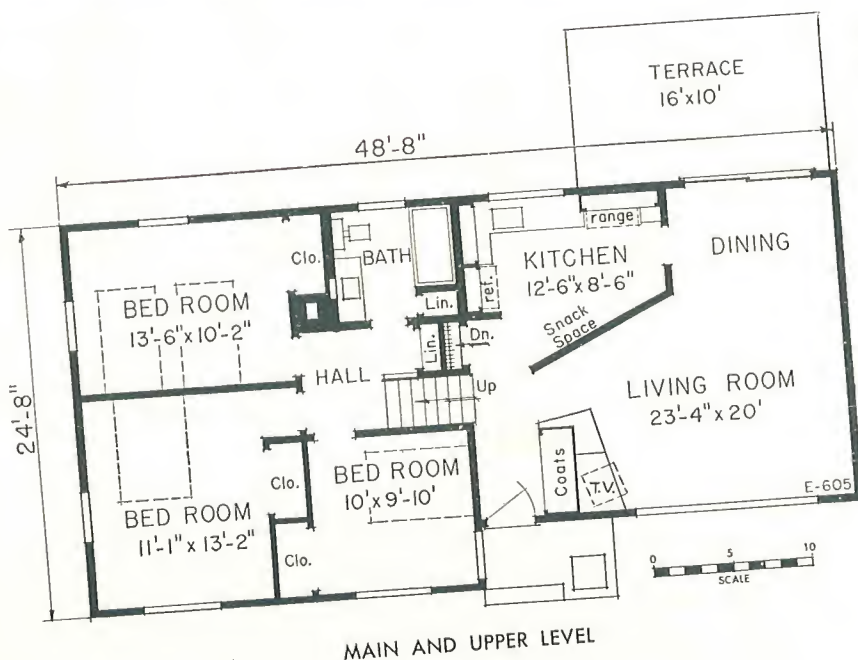

INDIVIDUALITY IN MULTI-LEVEL DESIGN

E-605

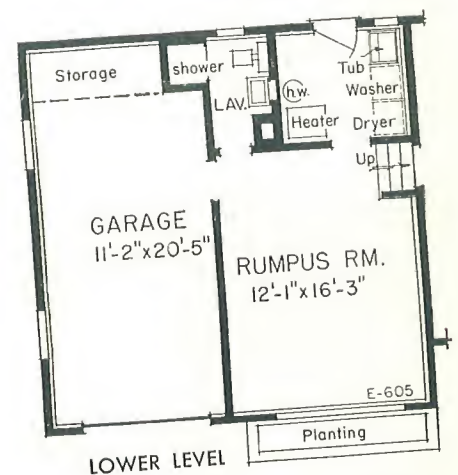

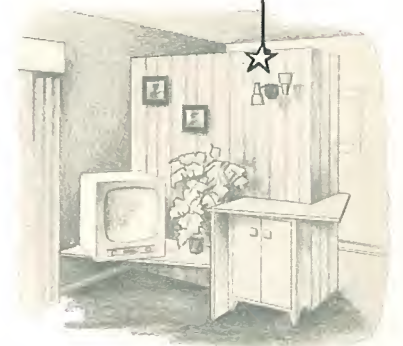

Designed for your living pleasure, each level of this home was planned to give you the utmost in comfort for your building dollars. Included on the lower level are the garage, a bath, laundry, storage area and a rumpus room that every member of the family will enjoy. Living, dining area, kitchen, bath and three bedrooms are located on the main and upper levels.

See us for blueprint plans of all homes illustrated in this book. Plans are available either as shown or in reverse position.

View of TV corner
in the living room.

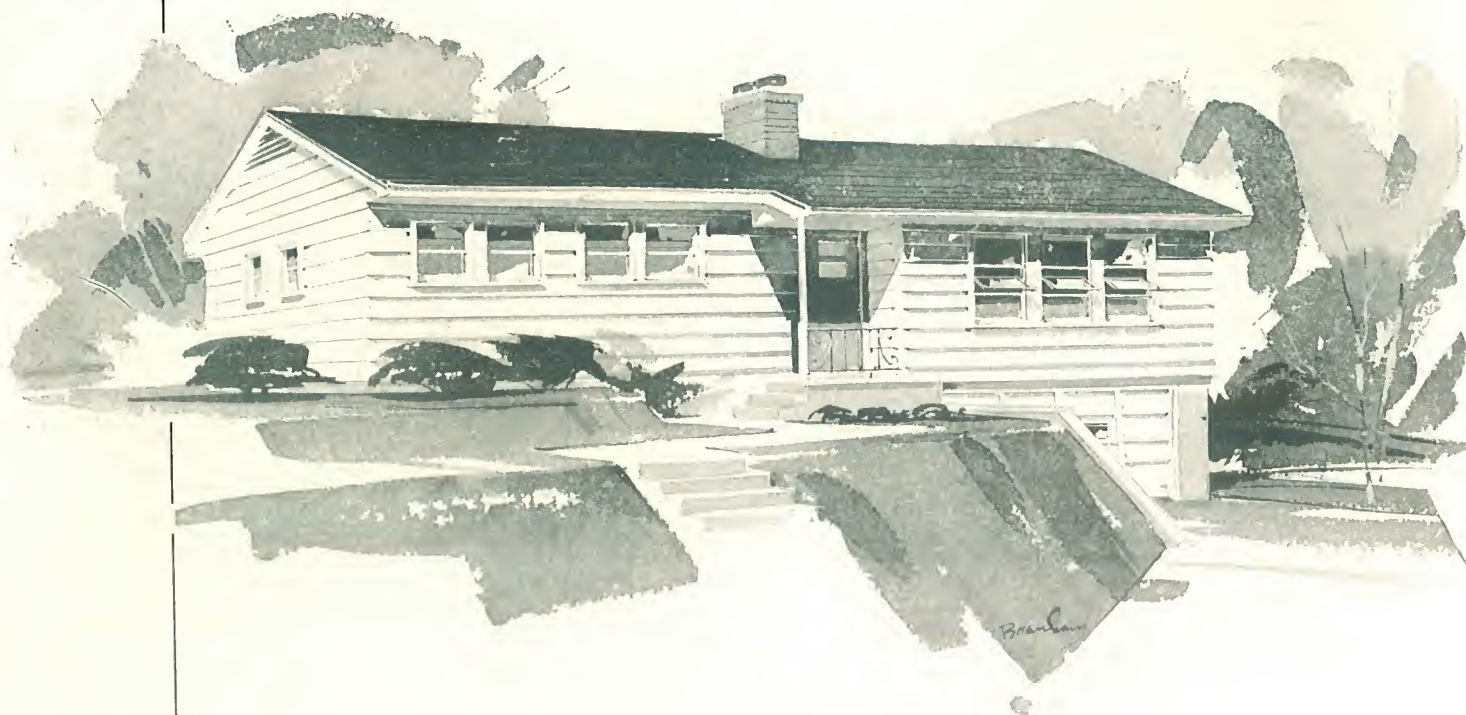

DATA

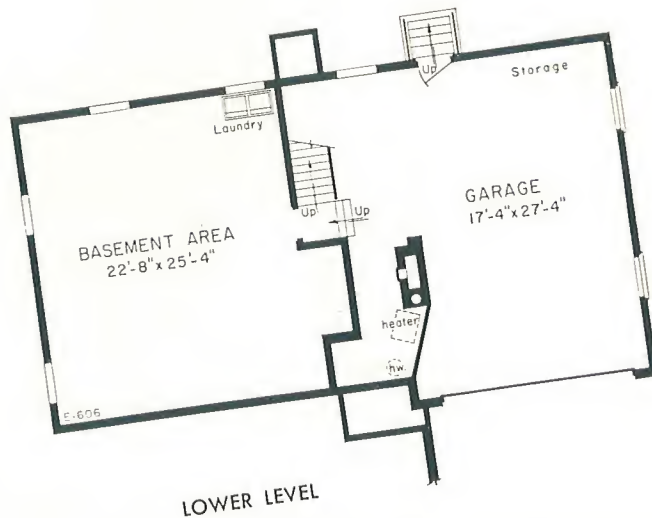

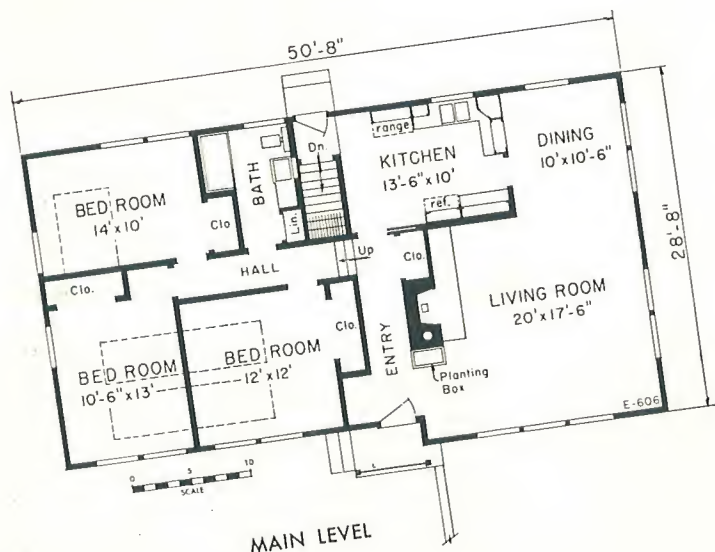

Living Area, Main and Upper Levels — 1,104 sq. ft.

E-606

AN IDEAL PLAN FOR SLOPING TERRAIN

Planned to be different, this three bedroom design offers many features for comfortable living. Some of these are—pleasing arrangement of fireplace and planting box in the living room—vanity bath and dining area convenient to the efficiently planned kitchen. Also note how the garage is located directly under the living room.

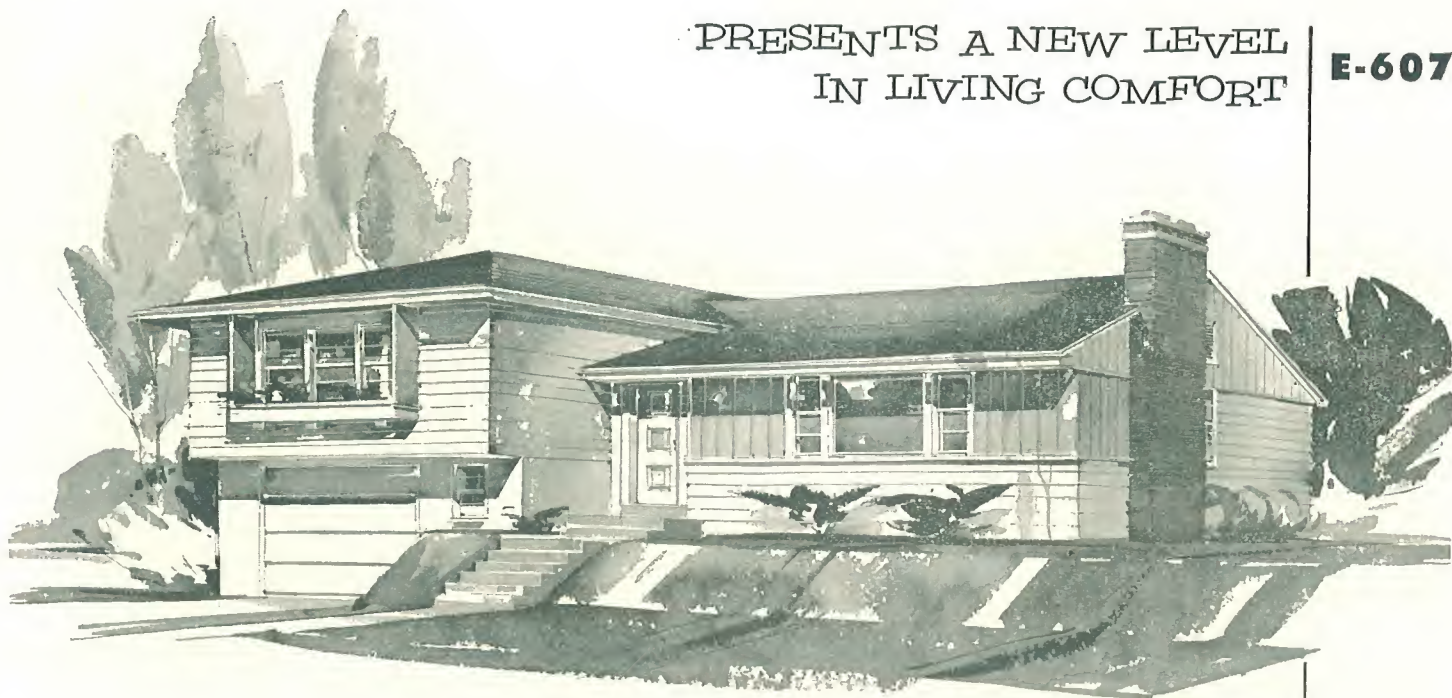

DATA

Living Area — 1,392 sq. ft.

See us for blueprint plans of all homes illustrated in this book. Plans are available either as shown or in reverse position.

PRESENTS A NEW LEVEL IN LIVING COMFORT

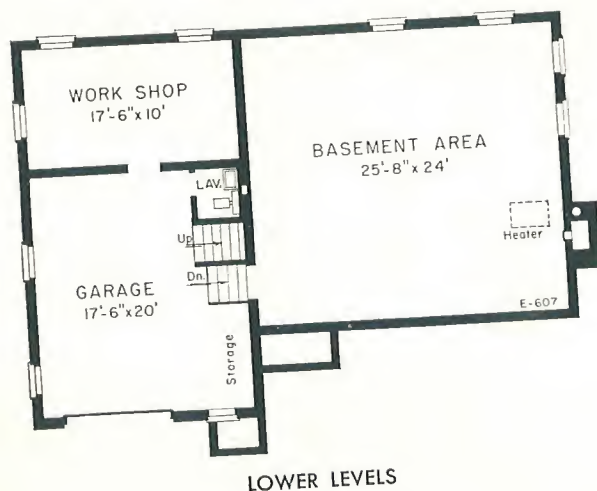

E-607

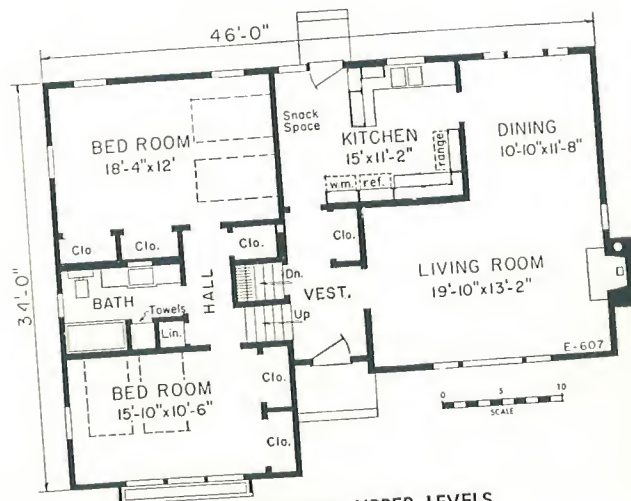

Designed for the utmost in living enjoyment, here is a multi-level home with a beautiful exterior that goes hand-in-hand with the comfort planned interior. In addition to the many appealing features on main and upper levels, this design also provides basement and storage areas, garage, lavatory and work shop on the lower levels. Though ideal for a sloping site, this home will provide the same living benefits in flat area location.

DATA

Living Area, Main and Upper Levels — 1,336 sq. ft.

LOWER LEVELS

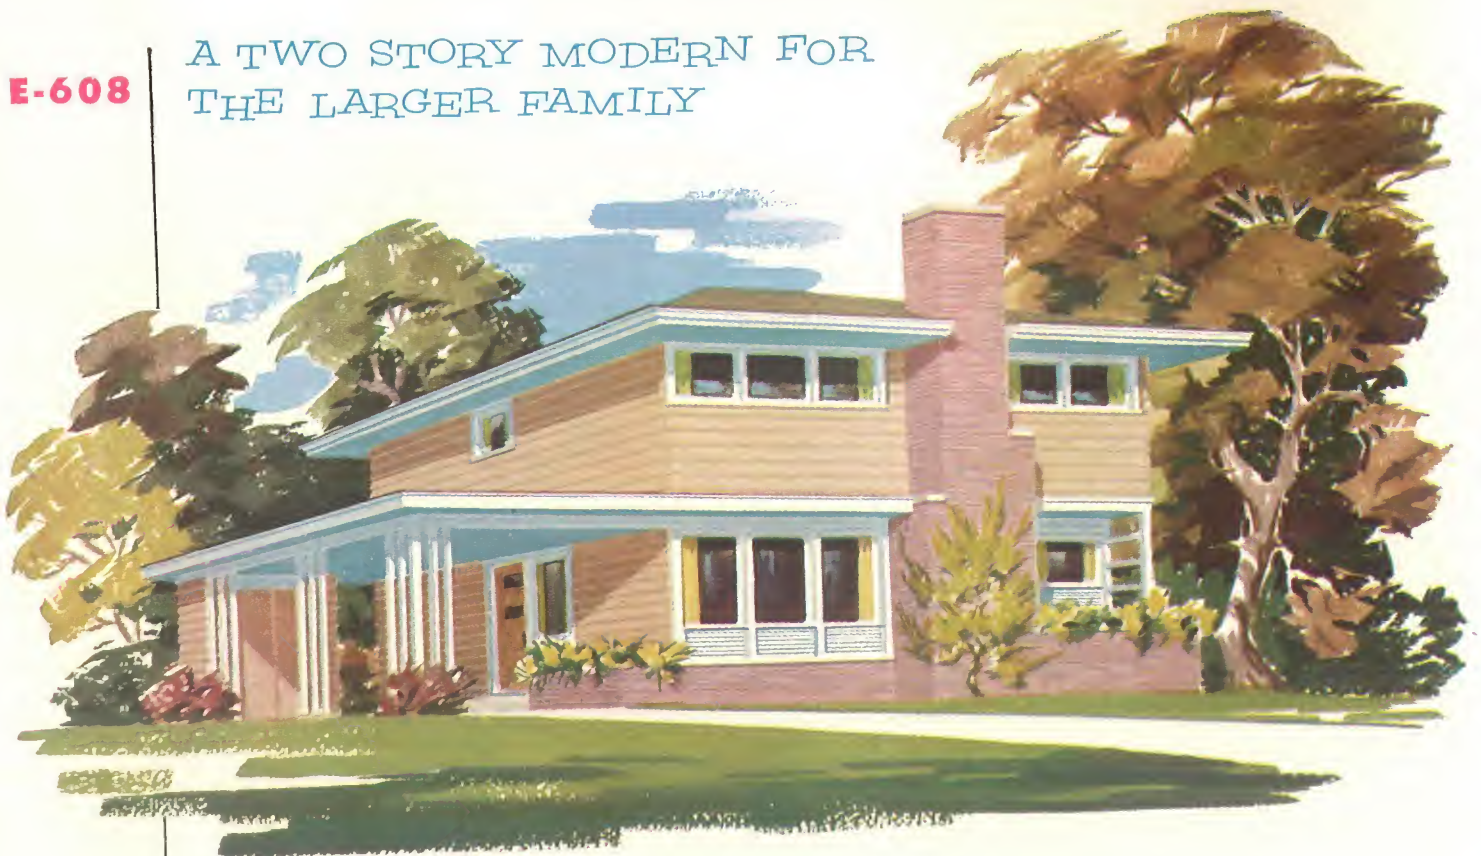

MAIN AND UPPER LEVELS

E-608

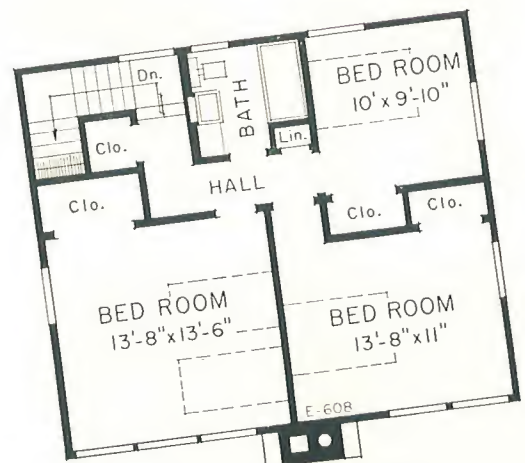

A TWO STORY MODERN FOR THE LARGER FAMILY

Living room with natural fireplace, dining room, kitchen, lavatory and storage wall create the modern living first floor plan of this beautiful home. The second floor includes three bedrooms, of which the master bedroom is of the twin bed size, and bath. Also note the closet space provided in this plan. The carport adds to the exterior eye-appeal of this design and includes a convenient storage area.

FIRST FLOOR PLAN

SECOND FLOOR PLAN

Blueprint plans are available for all homes illustrated in this book either as shown or in reverse position, if desired. Let us serve you now.

DATA

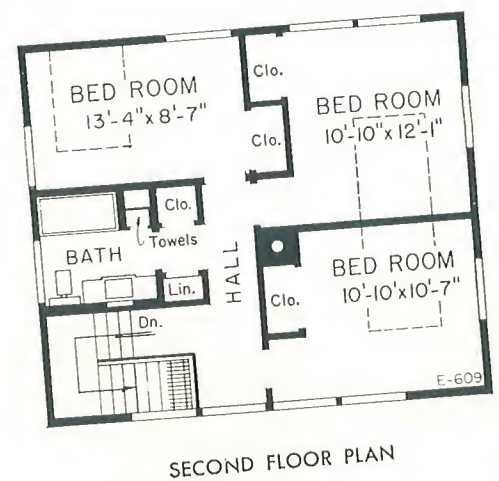

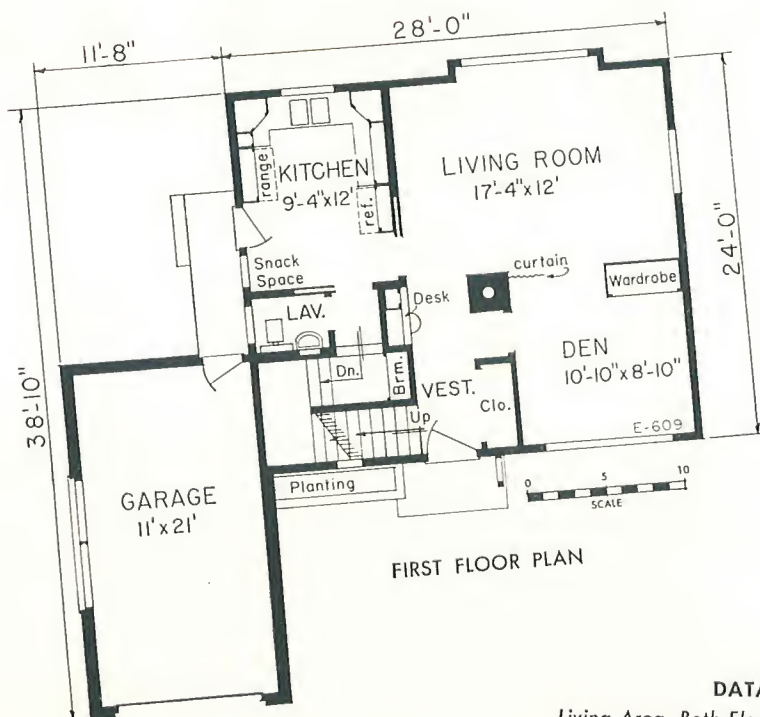

Living Area, Both Floors — 1,325 sq. ft.

A TWO STORY PLAN THAT'S MODERN INSIDE AND OUT

E-609

A study of the floor plans will prove that here is a comfort planned home that provides many modern living features. For example, note the telephone desk and den that are a part of the first floor plan. Low pitch gable roof, flat roof on attached garage, vertical siding, shingles and brick have been blended together to provide an exterior that is in step with the interior of this three bedroom home.

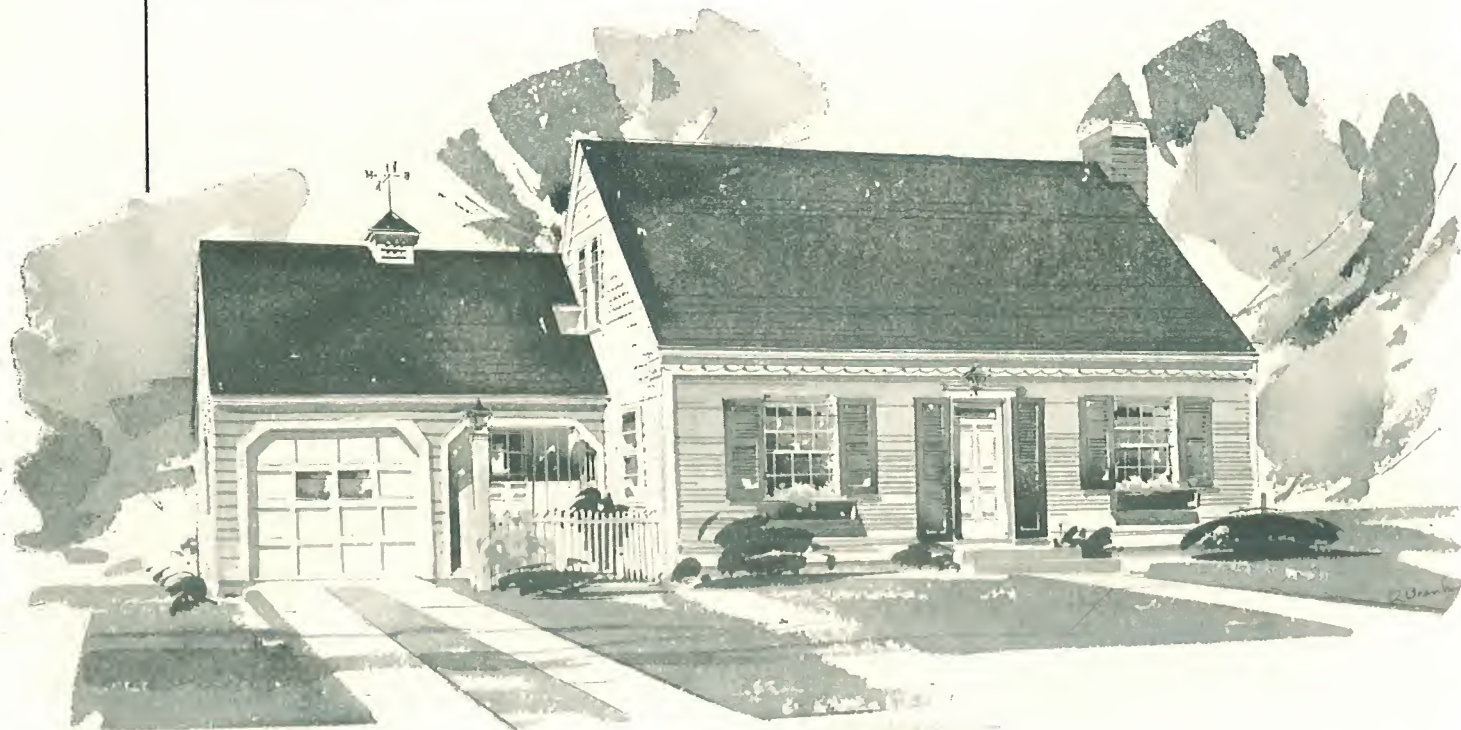

DATA

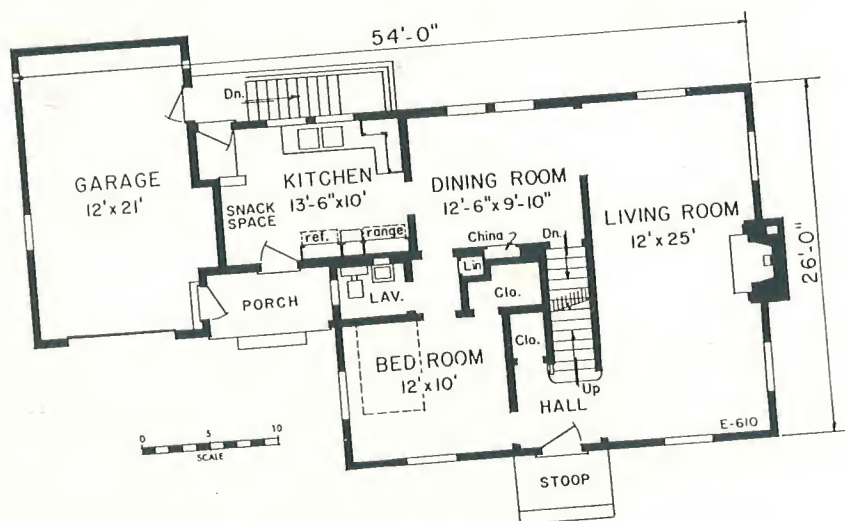

Living Area, Both Floors — 1,344 sq. ft.

E-610

TRADITIONAL STYLING ...MODERN COMFORT

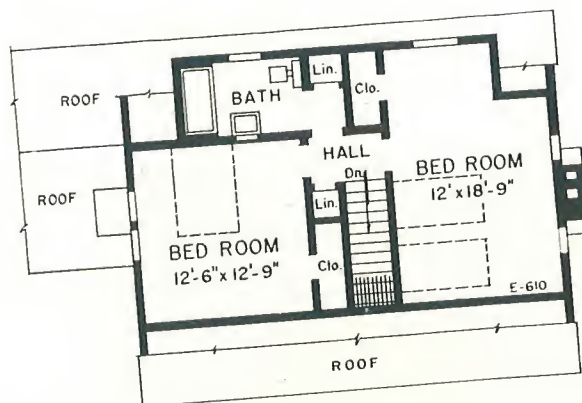

Here is a two-story Colonial design that will appeal to many of today's homemakers. The comfort-planned first floor includes living room with natural fireplace, dining room, kitchen with snack space, bedroom and powder room. Also note the two generous size bedrooms and bath located on the second floor. Exterior is of frame construction using wide and narrow beveled siding.

FIRST FLOOR PLAN

DATA

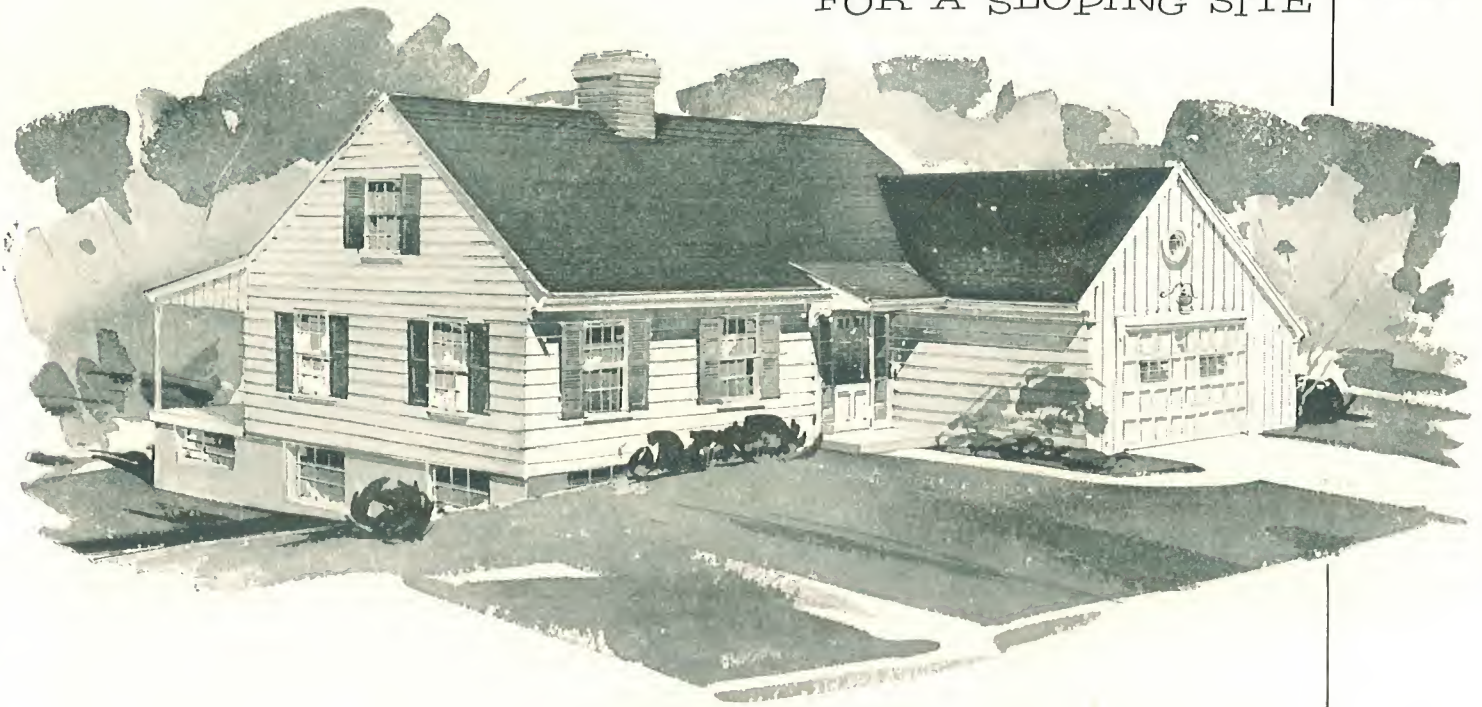

Living Area, Both Floors — 1,527 sq. ft.

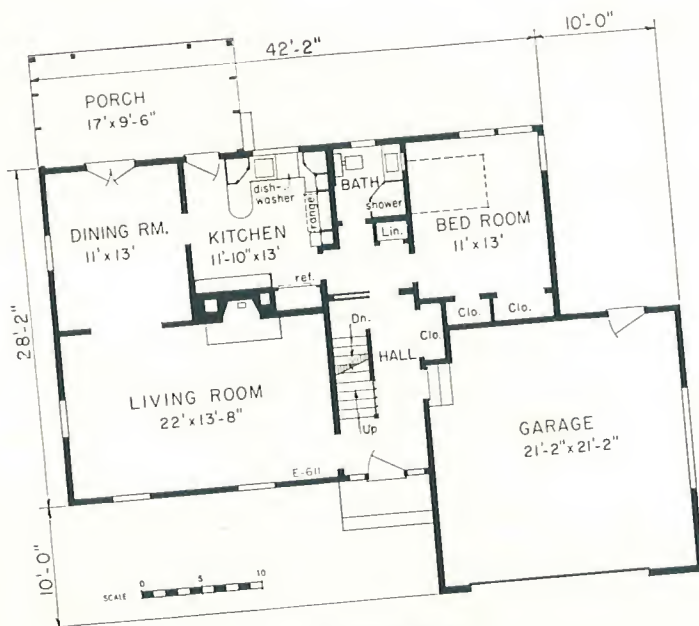

SECOND FLOOR PLAN

A TWO STORY DESIGN FOR A SLOPING SITE

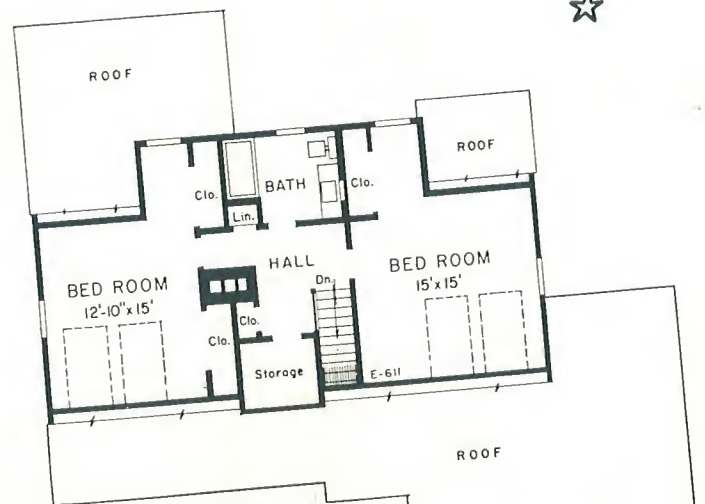

E-611

A careful study of the floor plans will reveal the many comfort features of this three bedroom design. Modern living highlights of the home are fireplace in both basement recreation room and living room, one bedroom and bath on the first floor with two additional bedrooms and bath on the second floor. Although an ideal design for a sloping site, this home is also a practical home for flat areas and will provide the same living benefits.

FIRST FLOOR PLAN

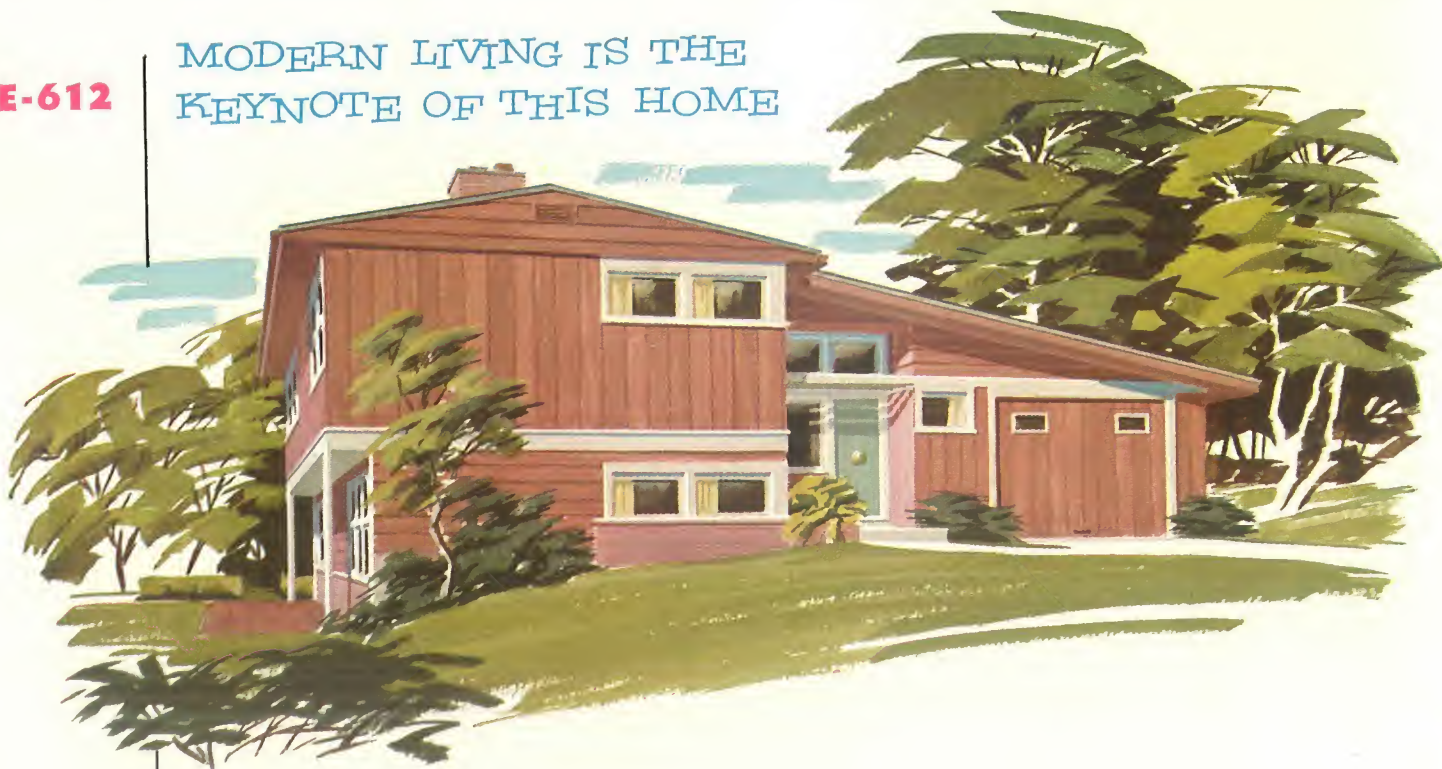

SECOND FLOOR PLAN

DATA

Living Area, Both Floors — 1,861 Sq. Ft.

E-612

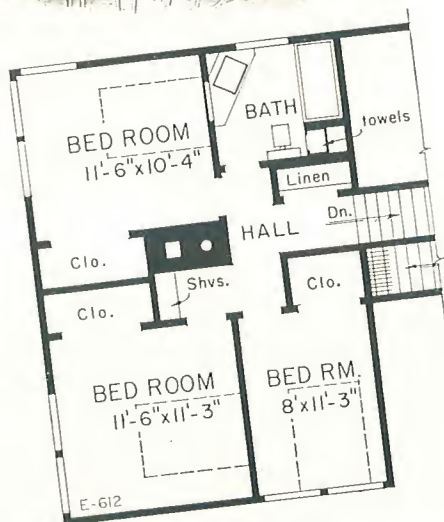

MODERN LIVING IS THE KEYNOTE OF THIS HOME

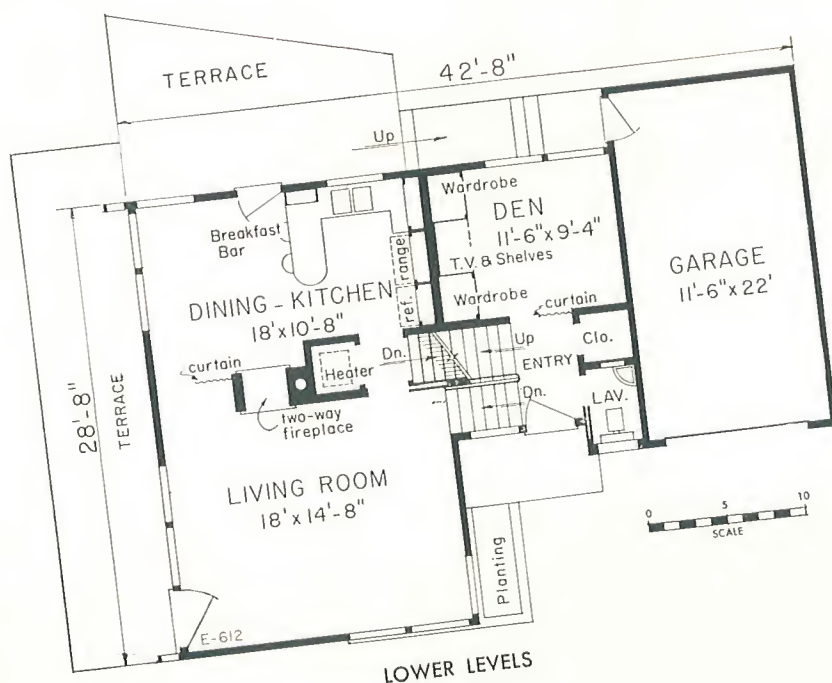

Inside and out, this multi-level design reflects living comfort at its best. In addition to three bedrooms and bath on the upper level, note the modern living features included on the lower levels . . . dining-kitchen area, breakfast bar, two-way fireplace, terrace and den. Also notice how the dining area can be separated from living room by use of a folding curtain.

View of dining-kitchen area and two-way fireplace.

UPPER LEVEL

LOWER LEVELS

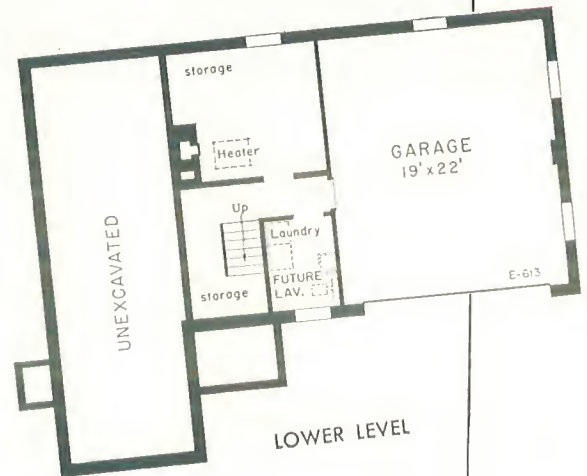

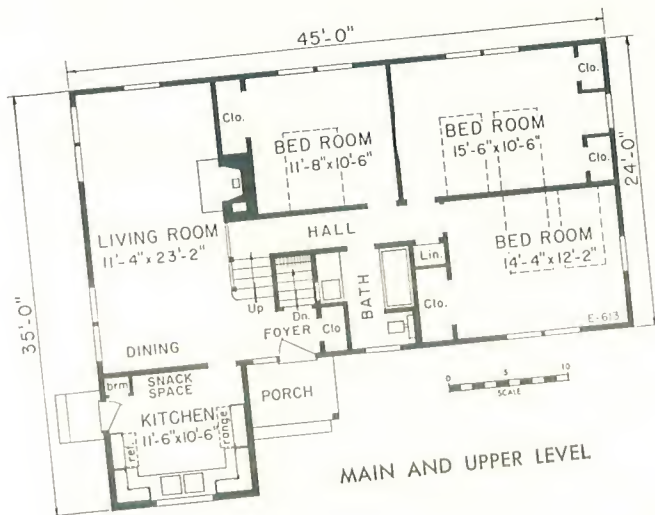

DATA

Living Area, Lower Levels and Upper Level—1,354 sq. ft.

A MULTI-LEVEL PLAN FOR SLOPING OR FLAT TERRAIN

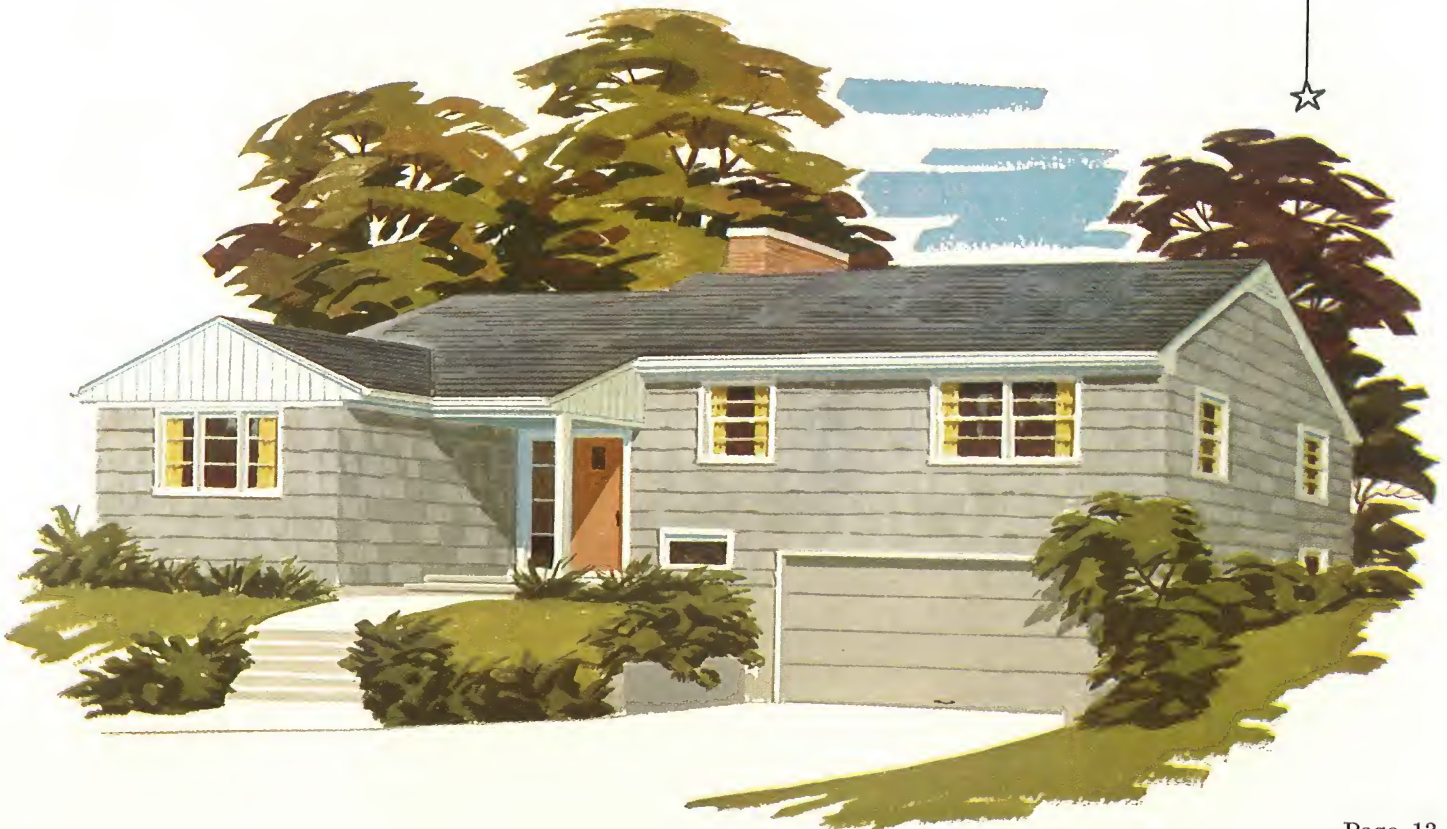

E-613

Designed to appeal to the larger family, the upper level of this home includes three bedrooms, of which two of the bedrooms are of the twin bed size, and a bath. Down a few steps is found the main level featuring a living room and "U" shape kitchen. Garage, storage and laundry areas plus space for a future lavatory are provided on the lower level. A pleasing exterior is created through use of shingles.

DATA

Living Area, Main and Upper Level — 1,218 sq. ft.

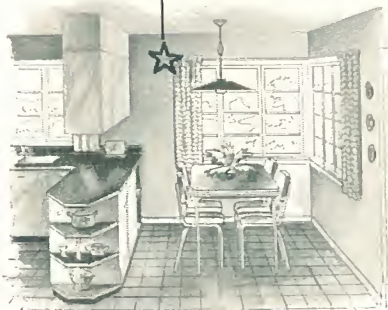

E-614

THE LOOK IS INVITING
THE PLAN IS PRACTICAL

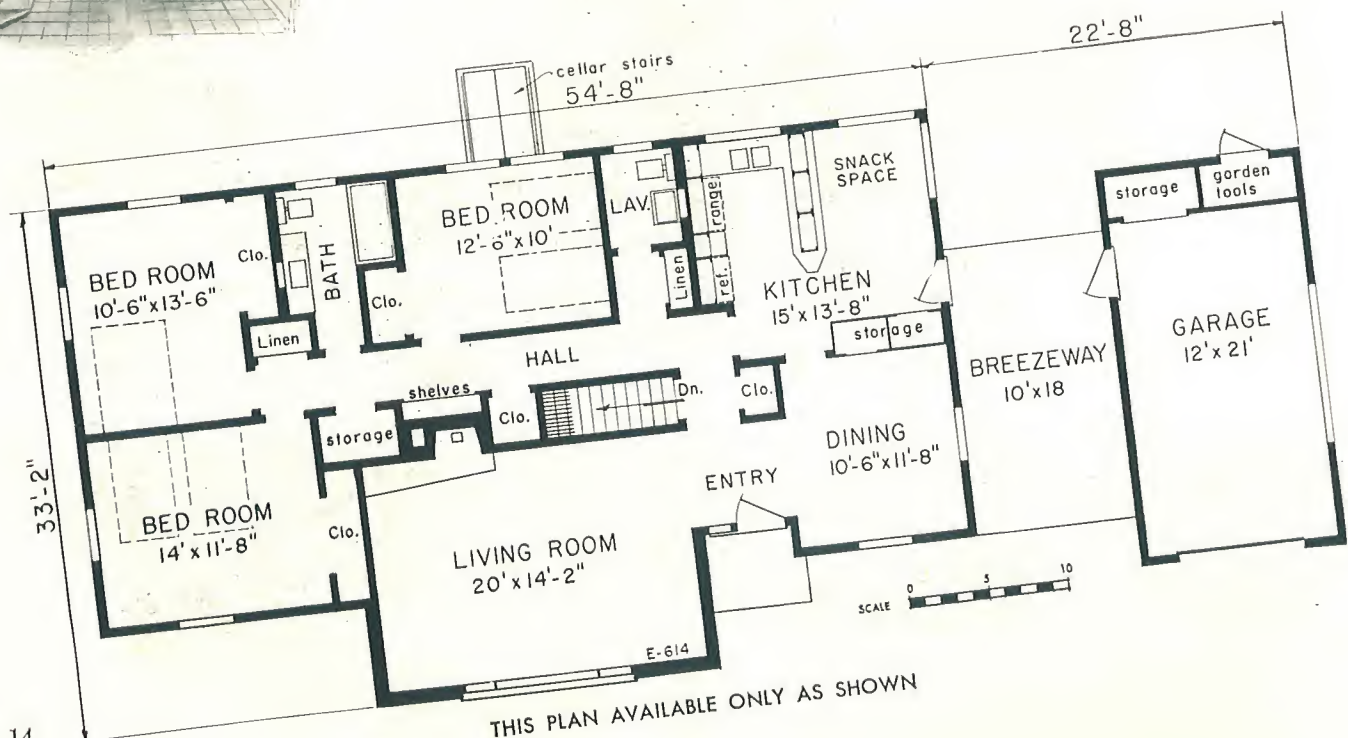

Unusual and modern in every detail, the floor plan of this home includes three bedrooms, living room, bath and a half, dining room, and a smart kitchen-dining area that will please every housewife. The outdoor living area or breezeway can be screened if desired.

View of kitchen-dining area.

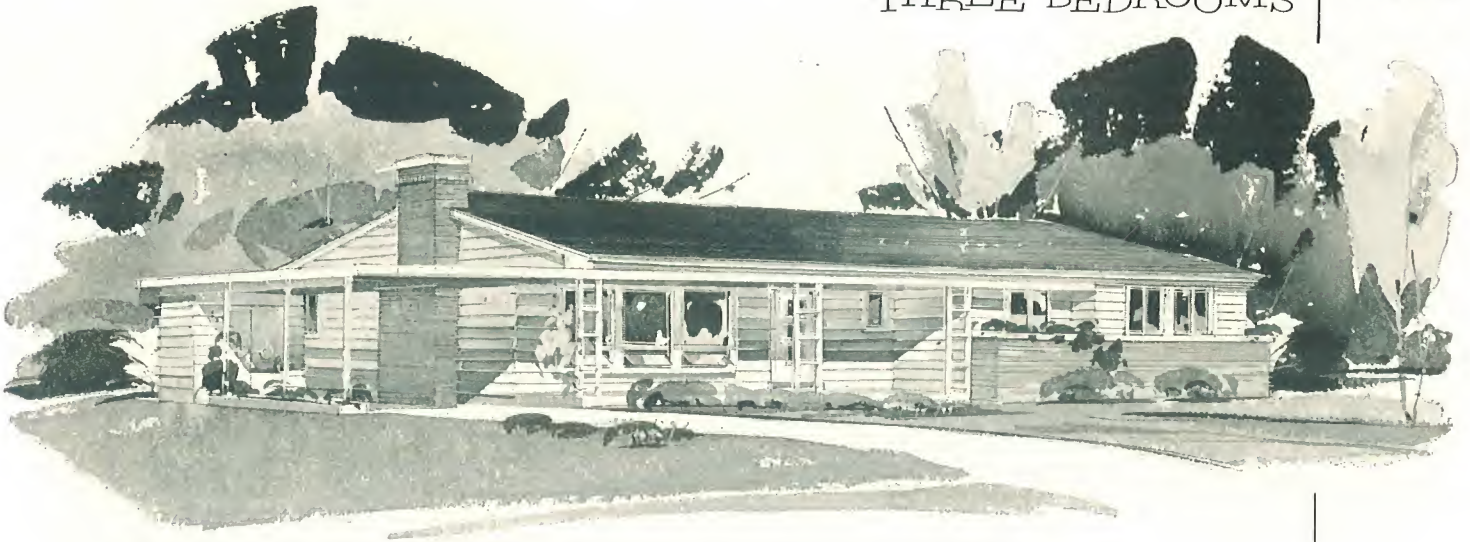

DATA

Living Area — 1,577 sq. ft.

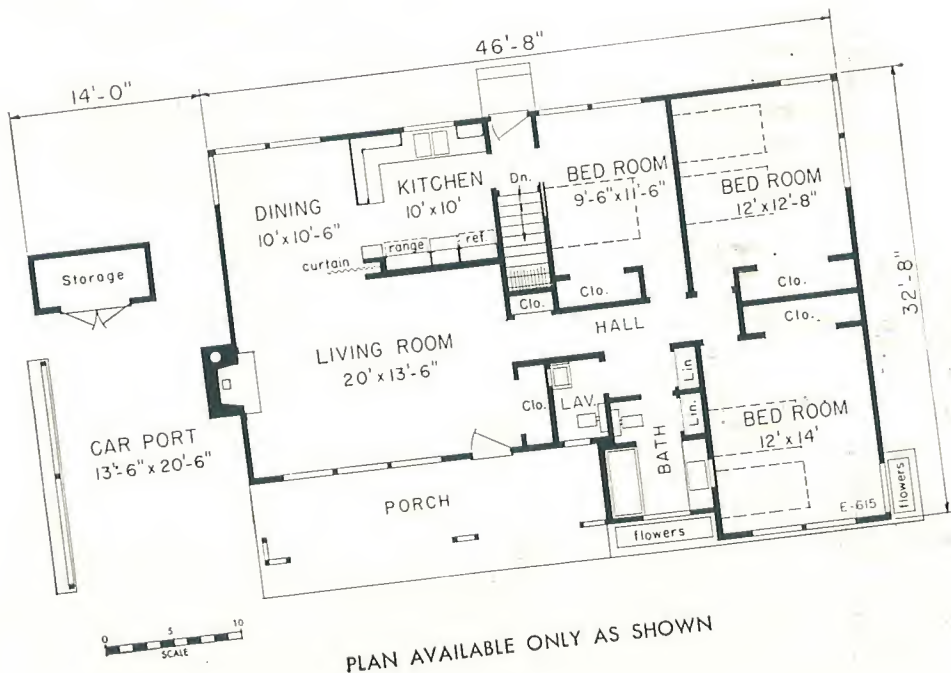

BATH AND A HALF AND THREE BEDROOMS

E-615

All the features that appeal to the home buyer are found in this ranch style home . . . carefully planned rooms, low pitch gable roof and sweeping lines. The plan features three bedrooms, bath and a half, a large living-dining area with natural fireplace and modern kitchen. Note how the dining area can be separated from living room by use of a folding curtain.

Blueprint plans are available for all homes illustrated in this book either as shown or in reverse position, if desired. Let us serve you now.

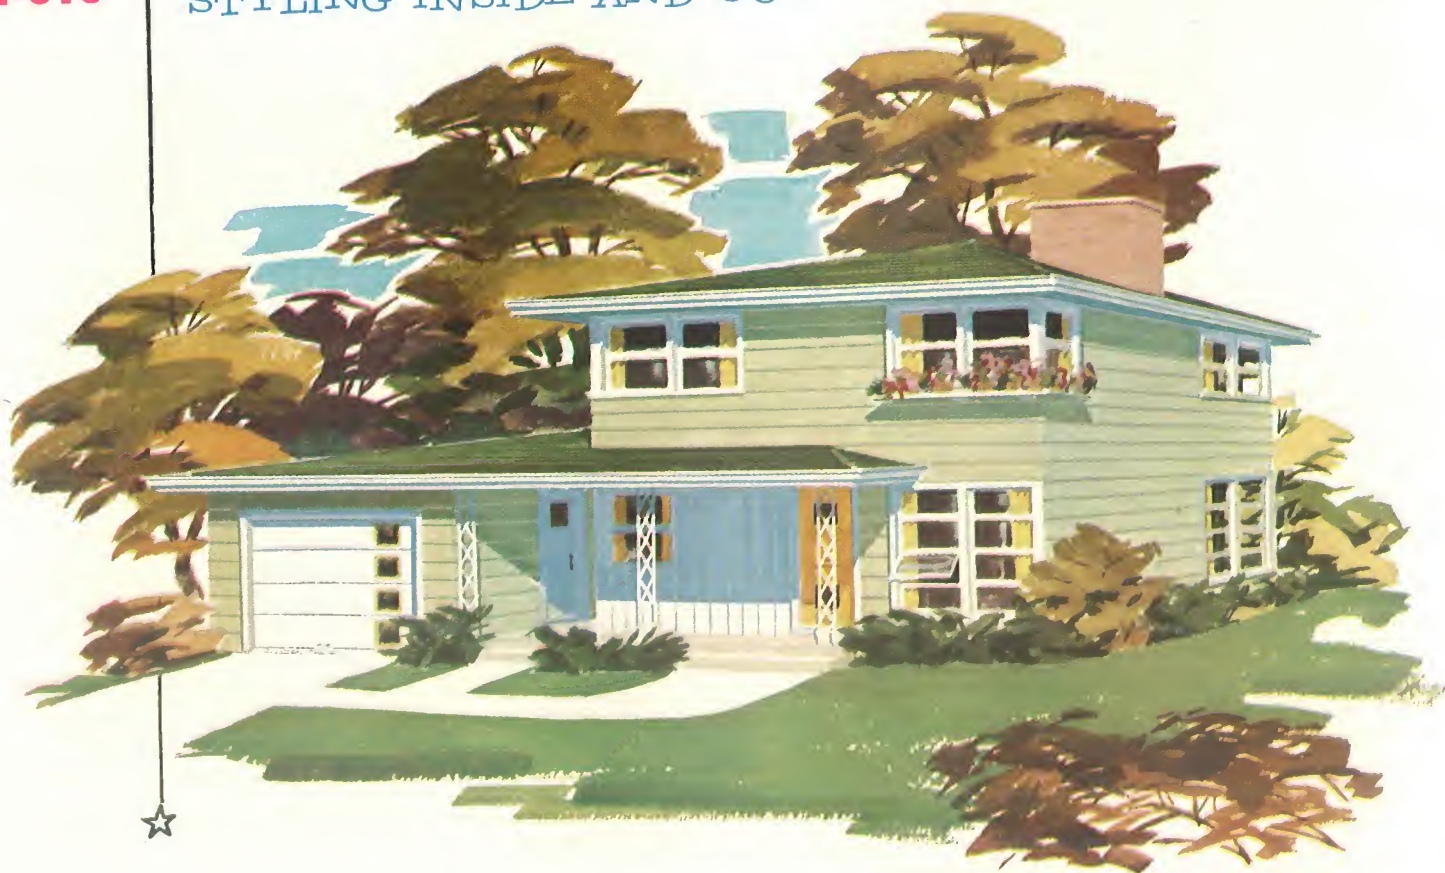

View of bath.

DATA

Living Area — 1,301 sq. ft.

E-616

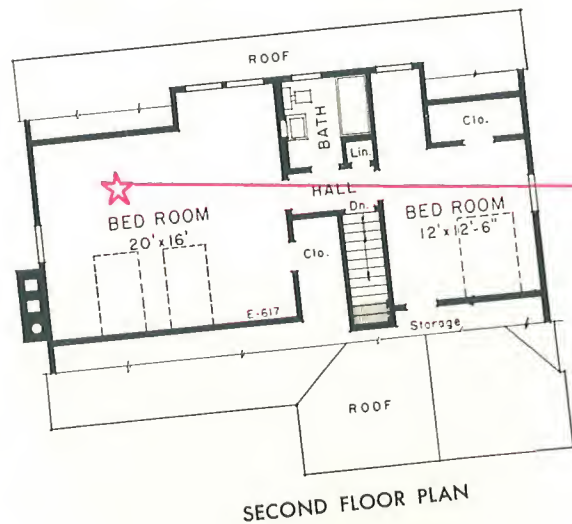

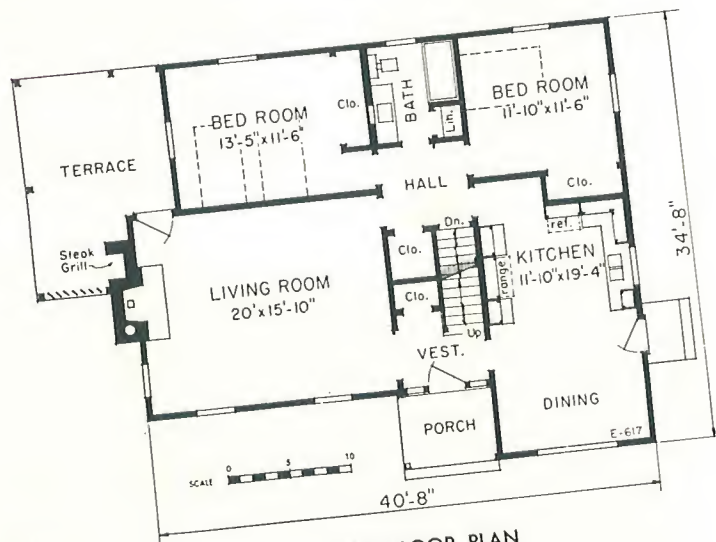

UP-TO-THE-MINUTE STYLING INSIDE AND OUT

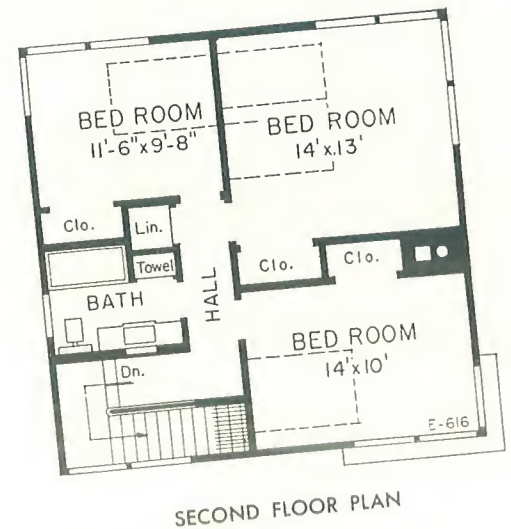

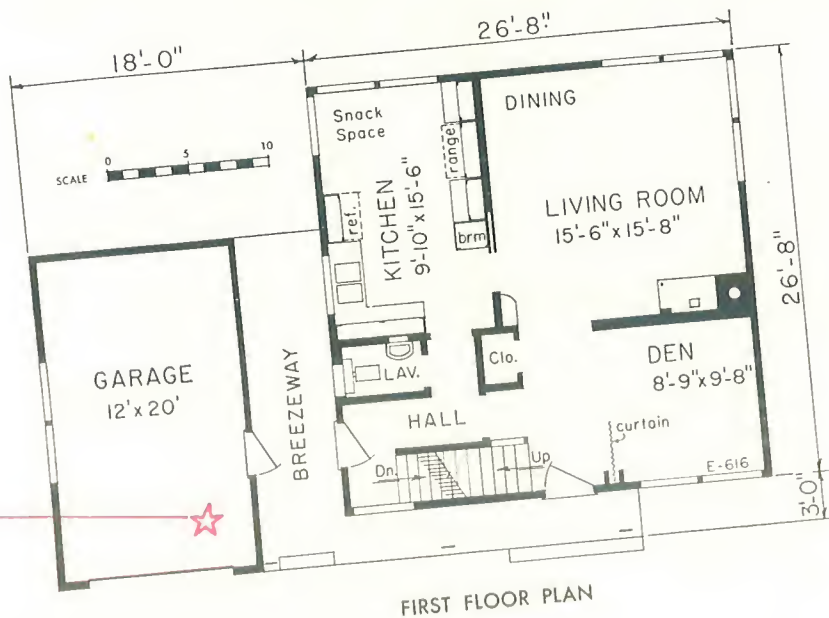

Modern living was the prime factor in the designing of this story and a half home that includes four bedrooms and two baths. For example, note the generous living area throughout and especially the size of the master bedroom on the second floor. Another highlight of this plan is the terrace featuring an outdoor steak grill adjacent to the living room fireplace. For real living pleasure, let us help you plan your home now.

DATA

Living Area, Both Floors — 1,950 sq. ft.

Planned for every practical convenience and comfort, the first floor of this two story home features a living room with corner fireplace, the latest in modern kitchens, a lavatory and a den. The den can be separated from the rest of the living area through use of a folding curtain as shown on the plan. Three bedrooms and bath are included on the second floor. A smart exterior completes the plan.

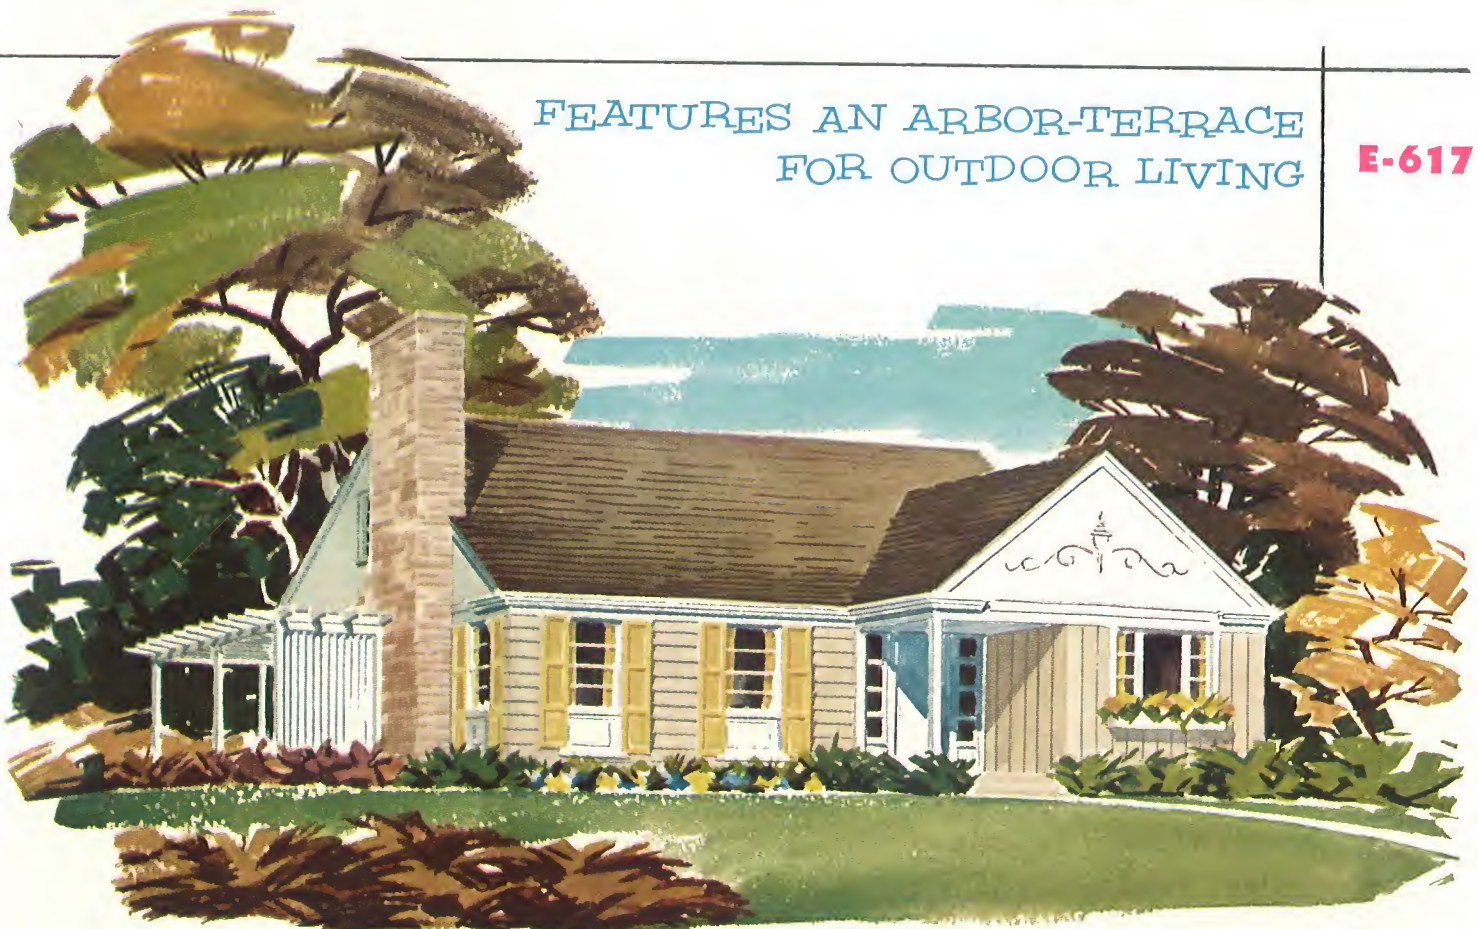

DATA

Living Area, Both Floors — 1,420 sq. ft.

INCLUDES A GAME ROOM FOR YOUR PLAY TIME HOURS

Designed with every member of the family in mind, here is a multi-level home that provides every possible living benefit. A game room for year 'round pleasure is a part of the lower levels which also include storage area, utility room and garage. Up a few steps on the main and upper levels are the living-dining area, kitchen, three bedrooms and bath. The pleasing exterior is attained through use of shingles.

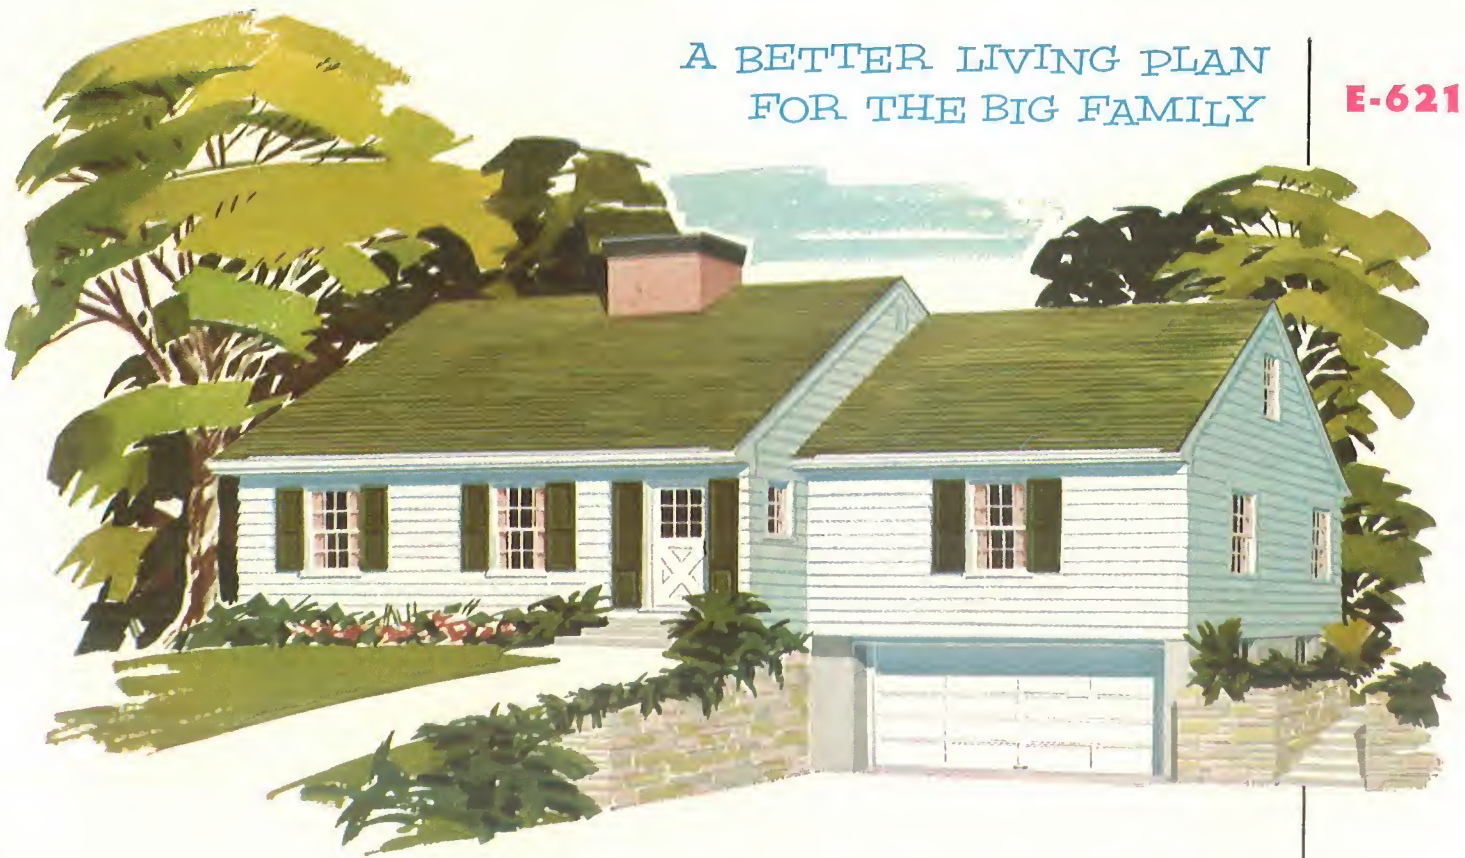

DATA

Living Area, Main and Upper Levels — 1,105 sq. ft.

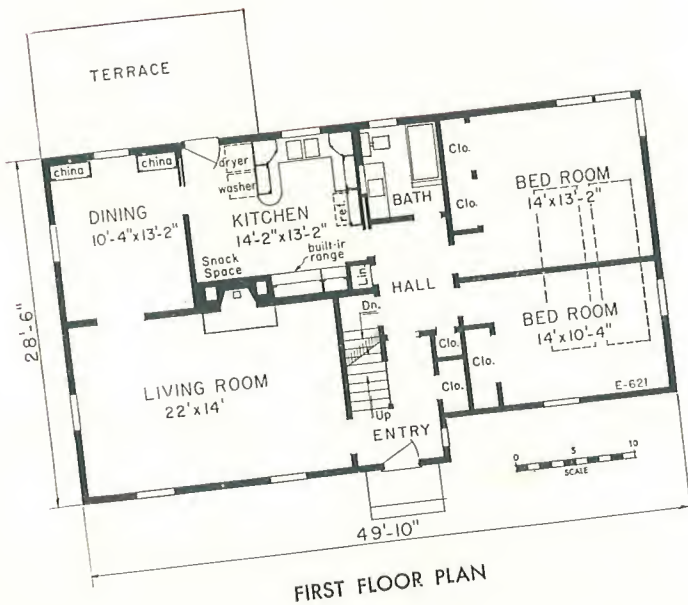

A BETTER LIVING PLAN FOR THE BIG FAMILY

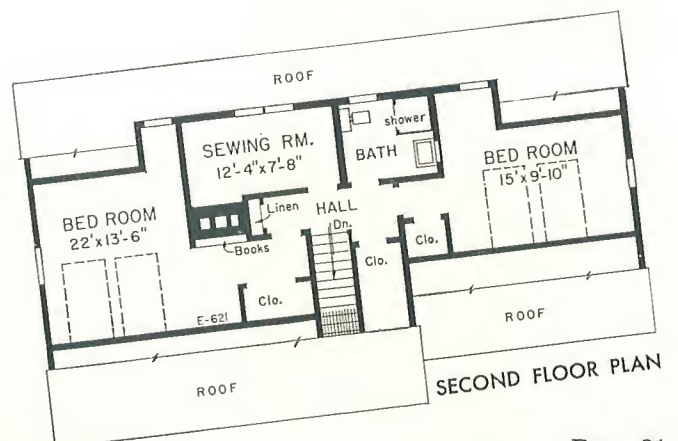

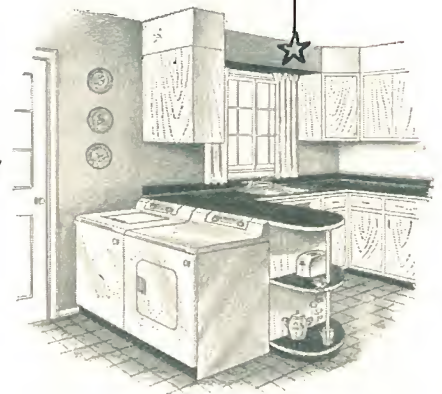

E-621

Here is a home that is truly individual and designed specifically for big family living, providing the utmost in comfort and convenience. Seldom will you find a house that includes such features as four twin bed size bedrooms, a sewing room, a modern kitchen with snack space and laundry, two baths and an outdoor living terrace. Also note how the garage is located directly under the first floor bedrooms.

View of kitchen-laundry

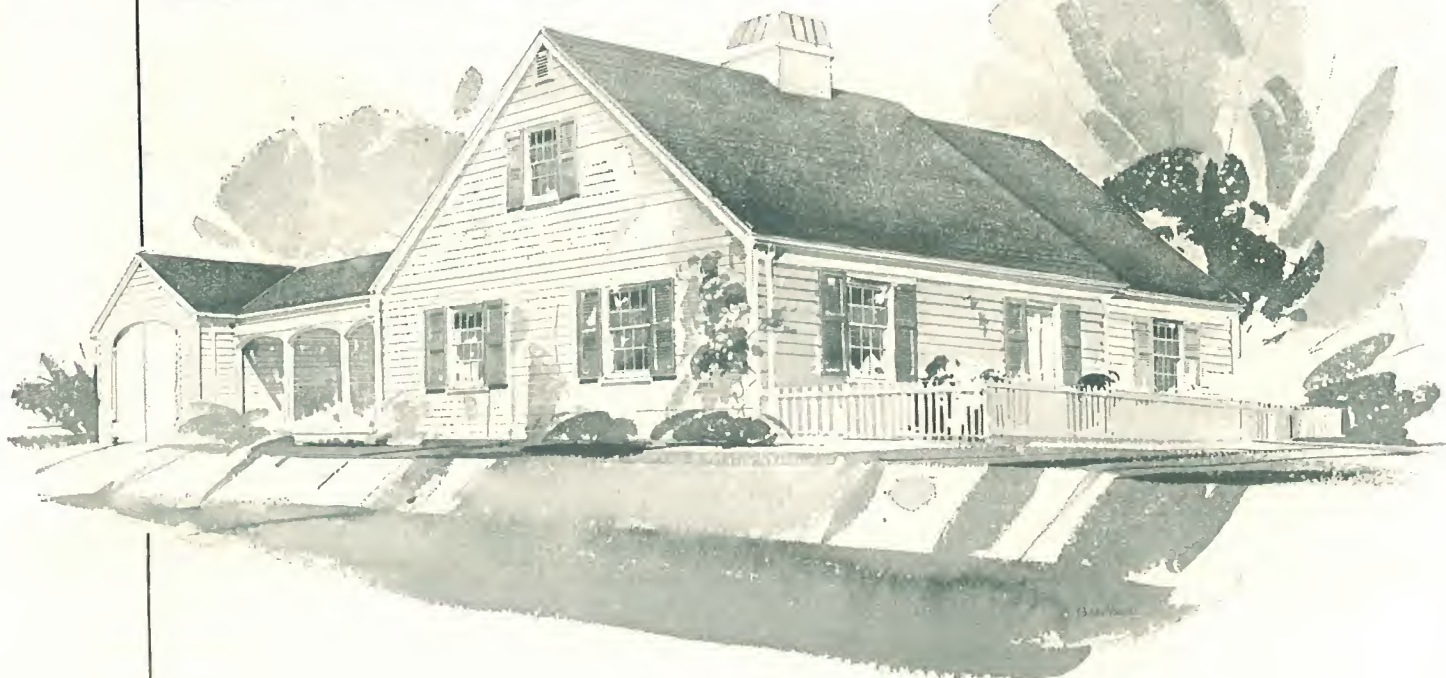

DATA

Living Area, Both Floors — 2,123 sq. ft.

E-622

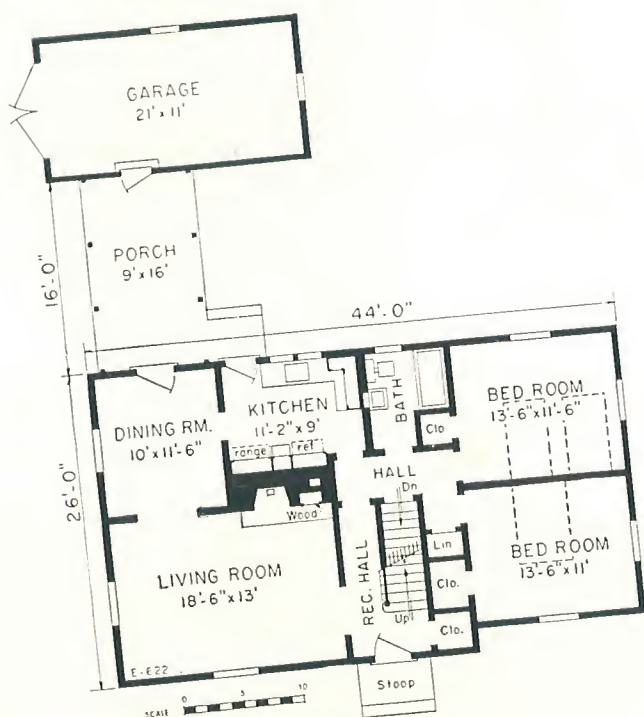

A TWO STORY PLAN THAT'S IDEAL FOR A CORNER LOT

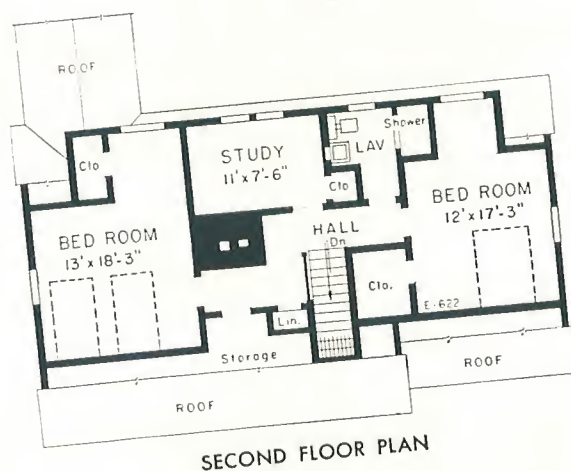

For the home buyer who demands traditional architecture providing the spaciousness of the modern rambler, this design is the answer. It may be built as a complete one-story home having five rooms, including two bedrooms and bath on the first floor. The second floor may be finished later if desired, adding two bedrooms, a nursery or sewing room and bath.

DATA

Living Area, Both Floors — 1,904 sq. ft.

E-628

A MODERN EXTERIOR WITH AN OPEN PLAN INTERIOR

A combination of the low pitch roof, horizontal and vertical siding and brick creates the appealing exterior of this multi-level home. The lower level includes garage, storage and laundry area and lavatory. A large living room, kitchen and activities room, accessible to a porch, are grouped on the main level and demonstrate the now popular "open-planning" trend. Sleeping quarters, consisting of three bedrooms, plus a bath are located on the upper level.

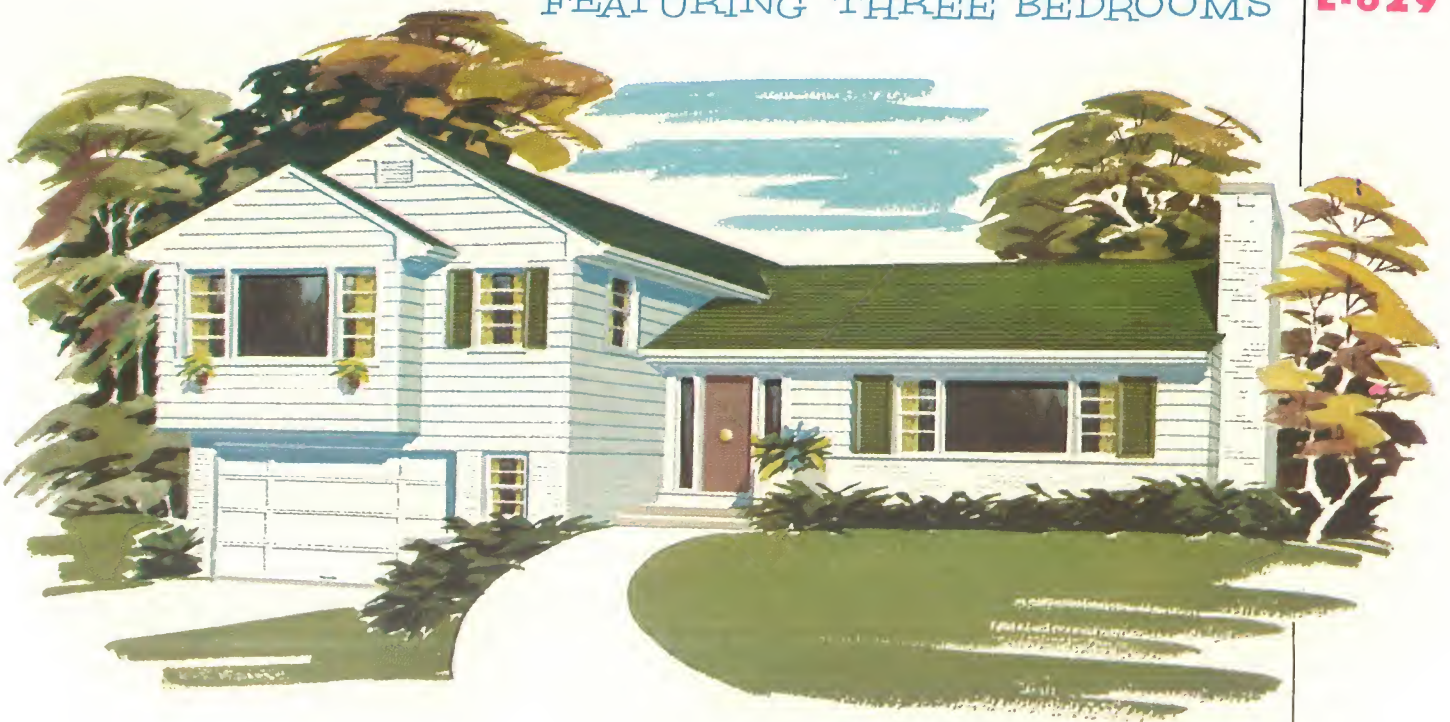

DATA

Living Area, Main and Upper Levels — 1,368 sq. ft.

A SPLIT-LEVEL DESIGN FEATURING THREE BEDROOMS

E-629

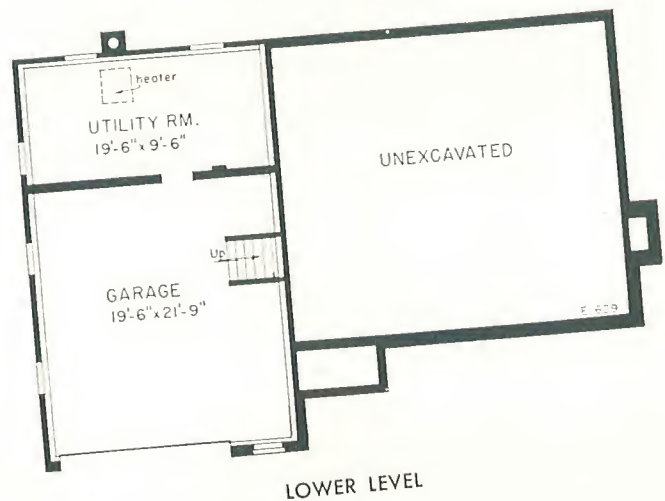

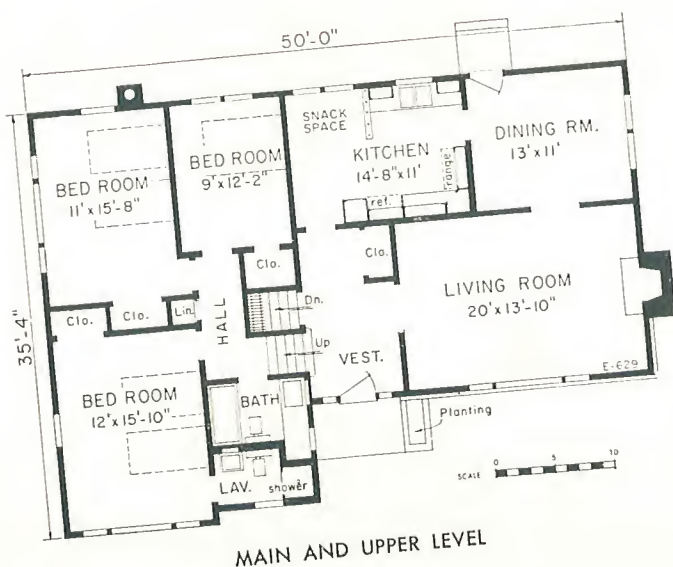

Picture windows in living room and master bedroom help create the appealing exterior of this multi-level home. Ideal for either sloping or flat terrain, this design offers many comfort features for today's homemakers.

On the lower level is the garage and utility area with living room, dining room and a modern kitchen featuring a cleverly planned snack space provided on the main level. Three bedrooms and a bath and a half are included on the upper level.

BLUEPRINT PLANS and SPECIFICATIONS AVAILABLE FOR ALL HOMES SHOWN IN THIS BOOK

When you buy a new home, you want to be sure you get the best value for your money. That's why you want to see the blueprint plans for the home you're considering. The blueprint plans show you the exact dimensions of the home, the location of the rooms, and the type of materials to be used. This information is essential for you to make an informed decision about the home you're considering.

Let us help you. We have the blueprint plans for all the homes shown in this book. We will provide you with a complete set of plans, including the foundation, floor plans, and roof plans. We will also provide you with a complete set of specifications, including the type of materials to be used and the type of workmanship to be done.

Our plans are available in two formats. You can choose to have the plans printed on a large sheet of paper, or you can choose to have the plans printed on a smaller sheet of paper. The larger sheet of paper is more convenient for you to use, but the smaller sheet of paper is more convenient for you to store. We will provide you with a complete set of plans, including the foundation, floor plans, and roof plans. We will also provide you with a complete set of specifications, including the type of materials to be used and the type of workmanship to be done.

So, if you're considering buying a new home, don't forget to ask for the blueprint plans. They will help you make an informed decision about the home you're considering.

When you buy a new home, you want to be sure you get the best value for your money. That's why you want to see the blueprint plans for the home you're considering. ACCURATE BLUEPRINT PLANS

A home must first be "constructed" on paper with every detail clearly defined, if the home builder would be assured of complete understanding and agreement among all concerned with the building of his home. In the interests of sound and better small home construction, each design in this book was engineered by architects and technicians experienced in specialized fields of home planning. All blueprint working drawings include the following: basement or foundation plan; floor plans; front, rear and side elevations; complete framing plans; wall sections and all necessary details.

REVERSED PLANS

Perhaps your home should face the opposite direction. Obviously, a plan designed for a lot facing east will not result in the best exposure when your lot fronts the west. Therefore, plans of homes as illustrated in this book are available either as shown or reversed, as may be required.

SPECIFICATIONS

are statements of particulars which tell you what you are going to receive in materials and workmanship. Blank specification forms and contract forms are included with blueprint plans.

See Us for Blueprint Plans and Other Information
